OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. 6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

REVENUE DEPARTMENT.

PROCLAMATION AND NOTIFICATION OF SALE OF IMMOVABLE PROPERTIES.

It is hereby notified that in satisfaction of arrears of land revenue due by the revenue defaulters, the undermentioned immovable properties will be sold by public auction as shown below.

The sale will commence at 11 A.M., and the properties will be knocked down to the highest bidders without reserve.

2. The amount of revenue payable by the purchaser on the property for the whole (or remainder, as the case may be) is as shown in detail in the statement at foot.

3. Purchasers will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the date of the sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made nor the remaining purchase money paid up, the property shall be re-sold at the expense and risk of the first purchaser.

5. The sale shall be stayed, if the defaulters, or any person acting on their behalf, or claiming an interest in the property, tender the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before the property is knocked down.

6. The sale of the property will not become absolute until the sale has been confirmed by the Deputy Commissioner or by some other officer duly authorized to confirm the same.

7. Purchasers having completed the payment of the purchase money, will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession and the property will be registered in the name of the purchasers, and a certificate of sale signed and sealed by the Deputy Commissioner, will be granted to them. It is to be distinctly understood that the Government are not responsible for errors of description or in estimated extent.

8. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Deputy Commissioner within thirty days from the date of sale, and also to appeal to the higher authorities against his order within the time prescribed by law, and the purchase shall be conditional on the final order in such appeal.

The book entitled "Dharma Samrajya" in Kannada, by Bidare Aswathanarayana Sastri is recommended for the Libraries of Middle and Secondary Schools in the State. Copies can be had of Mr. M. Narasinga Rao Sindhia, Timber Merchant, Sultanpet, Bangalore City, at Rs. 1-4-0 a copy.

Notification D. No. 37, *dated* 8*th November* 1921.

The students of English High School classes, whose names are given in the enclosed list are awarded III Grade Backward Class Scholarships of the monthly value of Rs. 8 each, tenable in the schools where they are now studying for a period of one year from 1st June 1921 (or) the date of admission to the class of each pupil, whichever is later, till the end of May 1922, subject to the usual condition of satisfactory progress and conduct.

The scholarships sanctioned herein shall be drawn on bills prepared in the prescribed printed form and signed by the Head Masters concerned in the case of Government High Schools, and in the case of Aided High Schools on similar bills countersigned by the respective Circle Inspectors.

Since it is not desirable to pay the whole of the accumulated arrears of scholarships in a lumpsum to students, some of whom, it is feared, may misuse the amount, Head Masters are requested to draw the scholarships due for the quarter ending 31st August 1921, in the first instance, and then claim the scholarships due for September and October 1921, in the bill for November 1921, along with the scholarships for that month.

No more recommendations for II or III Grade Backward Class Scholarships for this year will be entertained hereafter, as this is the final re-allotment.

Notification D. No. 36, *dated* 29*th October* 1921.

The book entitled "Dharma Samrajya" in Kannada, by Bidare Aswathanarayana Sastri is recommended for the Libraries of Middle and Secondary Schools in the State. Copies can be had of Mr. M. Narasinga Rao Sindhia, Timber Merchant, Sultanpet, Bangalore City, at Rs. 1-4-0 a copy.

Notification D. No. 37, *dated* 8*th November* 1921.

The students of English High School classes, whose names are given in the enclosed list are awarded III Grade Backward Class Scholarships of the monthly value of Rs. 8 each, tenable in the schools where they are now studying for a period of one year from 1st June 1921 (or) the date of admission to the class of each pupil, whichever is later, till the end of May 1922, subject to the usual condition of satisfactory progress and conduct.

The scholarships sanctioned herein shall be drawn on bills prepared in the prescribed printed form and signed by the Head Masters concerned in the case of Government High Schools, and in the case of Aided High Schools on similar bills countersigned by the respective Circle Inspectors.

Since it is not desirable to pay the whole of the accumulated arrears of scholarships in a lumpsum to students, some of whom, it is feared, may misuse the amount, Head Masters are requested to draw the scholarships due for the quarter ending 31st August 1921, in the first instance, and then claim the scholarships due for September and October 1921, in the bill for November 1921, along with the scholarships for that month.

No more recommendations for II or III Grade Backward Class Scholarships for this year will be entertained hereafter, as this is the final re-allotment.

PUBLIC WORKS SECRETARIAT.

No. P. W. 125—*K. S. S.* 258, *dated* 22*nd November* 1921.

Notice is hereby given that summer supplies of water will be made available for growing sugar-cane and hot weather crops (other than paddy) during the next season, *i.e.*, the hot weather months of 1922, commencing from 15th February, under the following channels below the Krishnarajasagara Reservoir within the reaches specified below:—

1. Left Bank Low Level Canal.
   Full length 12¾ miles.
2. Ramaswami Channel.
   First half-length 20¼ miles.
3. Rajaparameswari Channel.
   First length of 16¾ miles.
4. Madhavamanthri Channel.
   First half-length 13 miles.

The supply will not be a continuous one but intermittent, the channels being opened for ten days in a month and closed during the remaining twenty days for the necessary repairs to the channels. This kind of intermittent supply will be arranged by rotation for convenient sections of the channels to prevent unnecessary wastage of water.

The opening and closing of these channels during the hot weather shall rest with the officer in charge of these channels. The officer in charge will duly notify the dates of opening and closing of the channels or sections of them in each month and also issue necessary instructions to regulate the supplies for cultivation.

2. Applications for hot weather supply under the channels and in the reaches noted in paragraph 1 must be submitted to the Executive Engineer, Channels Division, French Rocks, so as to reach him before the 25th January 1922, in the form annexed to this notification with full particulars of information duly filled in the respective columns.

3. Government reserve to themselves the right of selection of the lands to be afforded the supply. Isolated fields dispersed over the area will not be selected, but only such fields as lie close to one another and can be formed more or less into compact blocks helping conservancy of supply. The area selected will be notified in the gazette in English and Kannada. Government reserve to themselves the right of rejecting any application without assigning any reasons for such rejection.

4. For the present till the resettlement operations are completed and the exact extent of land to which summer supply could be assured is ascertained, it is proposed to keep in abeyance the recovery of contribution on the lands commanded by the channel selected up to the lengths proposed to be now considered. This supply will be purely a temporary one and limited to the particular year for which applications are called for by the notification in the Gazette. However, a water rate of Rs. 5 per acre will be levied on all the lands selected for hot weather supply.

5. In the year concerned, in case water can be spared, not more than three waterings during the hot weather for manurial crops may be given to lands not included in the areas selected for hot weather irrigation in the reaches mentioned in paragraph 1 above and a rate of Re. 1 per acre for every such watering for these areas will be levied.

No hot weather supply will be given for crops raised or standing during the hot weather from February to end of June outside the area selected for such supply and if percolation or wastage water is used for such crops, extra water rate of Rs. 2-8-0 will be levied.

6. . A consolidated statement of lands selected with the names of owners, the extent of the field, and the water rate payable thereon under each channel, villagewar, will be prepared by the Irrigation Department and forwarded to the Deputy Commissioner of the District for collection of the amount due from the land-holders concerned to the Government.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. No. P. W. 125—*K. S. S.* 258, *dated* 22*nd November* 1921.

Notice is hereby given that summer supplies of water will be made available for growing sugar-cane and hot weather crops (other than paddy) during the next season, *i.e.*, the hot

1924

weather months of 1922, commencing from 15th February, under the following channels below the Krishnarajasagara Reservoir within the reaches specified below :—

1. Left Bank Low Level Canal.
   Full length 12¾ miles.
2. Ramaswami Channel.
   First half-length 20¼ miles.
3. Rajaparameswari Channel.
   First length of 16¾ miles.
4. Madhavamanthri Channel.
   First half-length 13 miles.

The supply will not be a continuous one but intermittent, the channels being opened for ten days in a month and closed during the remaining twenty days for the necessary repairs to the channels. This kind of intermittent supply will be arranged by rotation for convenient sections of the channels to prevent unnecessary wastage of water.

The opening and closing of these channels during the hot weather shall rest with the officer in charge of these channels. The officer in charge will duly notify the dates of opening and closing of the channels or sections of them in each month and also issue necessary instructions to regulate the supplies for cultivation.

2. Applications for hot weather supply under the channels and in the reaches noted in paragraph 1 must be submitted to the Executive Engineer, Channels Division, French Rocks, so as to reach him before the 25th January 1922, in the form annexed to this notification with full particulars of information duly filled in the respective columns.

3. Government reserve to themselves the right of selection of the lands to be afforded the supply. Isolated fields dispersed over the area will not be selected, but only such fields as lie close to one another and can be formed more or less into compact blocks helping conservancy of supply. The area selected will be notified in the gazette in English and Kannada. Government reserve to themselves the right of rejecting any application without assigning any reasons for such rejection.

4. For the present till the resettlement operations are completed and the exact extent of land to which summer supply could be assured is ascertained, it is proposed to keep in abeyance the recovery of contribution on the lands commanded by the channel selected up to the lengths proposed to be now considered. This supply will be purely a temporary one and limited to the particular year for which applications are called for by the notification in the Gazette. However, a water rate of Rs. 5 per acre will be levied on all the lands selected for hot weather supply.

5. In the year concerned, in case water can be spared, not more than three waterings during the hot weather for manurial crops may be given to lands not included in the areas selected for hot weather irrigation in the reaches mentioned in paragraph 1 above and a rate of Re. 1 per acre for every such watering for these areas will be levied.

No hot weather supply will be given for crops raised or standing during the hot weather from February to end of June outside the area selected for such supply and if percolation or wastage water is used for such crops, extra water rate of Rs. 2-8-0 will be levied.

6. A consolidated statement of lands selected with the names of owners, the extent of the field, and the water rate payable thereon under each channel, villagewar, will be prepared by the Irrigation Department and forwarded to the Deputy Commissioner of the District for collection of the amount due from the land-holders concerned to the Government

No. P. W. 125—*K. S. S.* 258, *dated 22nd November* 1921.

Notice is hereby given that summer supplies of water will be made available for growing sugar-cane and hot weather crops (other than paddy) during the next season, *i.e.*, the hot weather months of 1922, commencing from 15th February, under the following channels below the Krishnarajasagara Reservoir within the reaches specified below :—

1. Left Bank Low Level Canal.
   Full length 12¾ miles.
2. Ramaswami Channel.
   First half-length 20¼ miles.
3. Rajaparameswari Channel.
   First length of 16¾ miles.
4. Madhavamanthri Channel.
   First half-length 13 miles.

The supply will not be a continuous one but intermittent, the channels being opened for ten days in a month and closed during the remaining twenty days for the necessary repairs to the channels. This kind of intermittent supply will be arranged by rotation for convenient sections of the channels to prevent unnecessary wastage of water.

The opening and closing of these channels during the hot weather shall rest with the officer in charge of these channels. The officer in charge will duly notify the dates of opening and closing of the channels or sections of them in each month and also issue necessary instructions to regulate the supplies for cultivation.

2. Applications for hot weather supply under the channels and in the reaches noted in paragraph 1 must be submitted to the Executive Engineer, Channels Division, French Rocks, so as to reach him before the 25th January 1922, in the form annexed to this notification with full particulars of information duly filled in the respective columns.

3. Government reserve to themselves the right of selection of the lands to be afforded the supply. Isolated fields dispersed over the area will not be selected, but only such fields as lie close to one another and can be formed more or less into compact blocks helping conservancy of supply. The area selected will be notified in the gazette in English and Kannada. Government reserve to themselves the right of rejecting any application without assigning any reasons for such rejection.

4. For the present till the resettlement operations are completed and the exact extent of land to which summer supply could be assured is ascertained, it is proposed to keep in

abeyance the recovery of contribution on the lands commanded by the channel selected up to the lengths proposed to be now considered. This supply will be purely a temporary one and limited to the particular year for which applications are called for by the notification in the Gazette. However, a water rate of Rs. 5 per acre will be levied on all the lands selected for hot weather supply.

5. In the year concerned, in case water can be spared, not more than three waterings during the hot weather for manurial crops may be given to lands not included in the areas selected for hot weather irrigation in the reaches mentioned in paragraph 1 above and a rate of Re. 1 per acre for every such watering for these areas will be levied.

No hot weather supply will be given for crops raised or standing during the hot weather from February to end of June outside the area selected for such supply and if percolation or wastage water is used for such crops, extra water rate of Rs. 2-8-0 will be levied.

6. A consolidated statement of lands selected with the names of owners, the extent of the field, and the water rate payable thereon under each channel, villagewar, will be prepared by the Irrigation Department and forwarded to the Deputy Commissioner of the District for collection of the amount due from the land-holders concerned to the Government,

Resolution—After the assignment of the Revenue from the levy of cess on certain items of Excise and Forest revenue and entire Mohatarfa, the Board have undertaken many additional responsibilities and provided for an additional annual recurring expenditure of about Rs. 60,000 as per statement enclosed. It is not possible to surrender any portion of the Mohatarfa funds previously credited as they have been spent by distribution to the Taluk Boards and otherwise. The Board, however, have no objection to credit to the General Revenue for being passed over to the Educational Department any realizations from Mohatarfa and Cess about 15,000 in excess of Rs. 60,000 on the clear understanding that this amount should be ear-marked for expenditure only in this district.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Alteration of Date of Birth.

READ—

Notification No. Fl. 6701—S & A 517-05-4 dated, 24th April 1906, directing that all applications from officials desiring to have the dates of their birth as entered in their service registers altered, should be submitted to Government within three months of the said notification.

2. Rule 5 (*a*) of the Rules of the Mysore State Life Insurance, Compulsory Branch.

ORDER No. FL. 2263-319—G. F. 53-21-1, DATED 13TH OCTOBER 1921.

It has come to the notice of Government that officials entering Government service are often not sufficiently careful in giving evidence of their date of birth for entry in their service registers, and that consequently the dates as offered at the time of their submitting proposals for their insurance differ from the dates as entered in the service register. The prevalence of such a laxity in furnishing information of date of birth affects the reliability of the entry in the service register. It is necessary that the information given immediately on appointment should be accurate. Government direct therefore that every official newly appointed to Government service whether permanently or temporarily should produce satisfactory evidence of date of birth to the appointing Officer or the Head of the Office as the case may be, before his first monthly pay is disbursed to him. With this object they direct that, in claiming the pay of a new employee for the first month, the drawing officer should certify that he has received satisfactory evidence of age from the official and has entered the same in the service register along with other particulars.

2. The rule relating to the opening of service registers, which now applies only to to permanent employees will, in future apply to temporary employees also.

3. The following shall be considered as satisfactory proof of age:—

1. An authenticated extract from the Birth Register or the Baptismal Register, or
2. original copy of the horoscope, or correspondence at the time of birth supported by a declaration before the Head of the Office or

3. An affidavit of the parent of the applicant or a close relative who has knowledge of the approximate date of birth of the applicant signed before an officer who is competent to administer oath. In every case, the official should make a declaration that he is producing the best evidence he can get and that he binds himself to the age so given.

4. Government direct that once the date of birth has been accepted in the service register, it should form conclusive evidence of the same in respect of all Government transactions. The entry in the service register should be full and it should indicate on what evidence the date of birth is accepted by the appointing Officer or the Head of the Office.

5. Rule (*a*) of the State Life Insurance Rules will accordingly be amended as follows:—

(i) The Committee shall accept an extract from the service register in regard to the date of birth as evidence of such date.

(ii) It shall, however, be open to the Committee to take evidence afresh in the event of the extract being defective in any case, and cases in which dates different from those entered in service registers are proposed to be accepted by the Insurance Committee should be reported to Government for orders.

ORDER No E. A. 2013-92—E. A. 14-21-6, DATED 28TH NOVEMBER 1921.

The following general rules are issued for regulating appointments to posts in superior service of Government.

(1) No person who is not a native of Mysore by birth or domicile shall be entertained in the service without the permission of Government.

(2) No person who cannot read and write Kannada with facility shall be appointed to superior service without the permission of Government.

(3) Rules prescribing general educational qualifications for posts in any department shall be deemed to apply only to candidates recruited direct to those posts. Such rules shall not debar the promotion from the lower ranks of officials otherwise duly qualified for higher posts.

(4) Promotions in all departments shall ordinarily be made according to seniority combined with capacity and character. If the supersession of any person is found necessary, the sanctioning authority shall record his reasons therefor.

(5) The preference given as a temporary measure to candidates of backward communities in paragraph 6 of the G. O. of the 16th May 1921 shall apply only to cases of direct recruitment. Such preference shall not extend to promotions.

2. Separate orders will issue in the matter of regulating recruitment to the different kinds of appointments, and also appointments in different departments of Government.

3. The clerkship rules prescribed in G. O. No. 172—E. A. G., dated 15th March 1917, are hereby cancelled.

Vacancies in the Ministerial Ranks of Superior Service.

Issues supplementary instructions for regulating the filling up of——in the State.

Para 2 of Government Order No. E. A. 2013-92—E. A. 14-21-6, dated 28th November 1921, issuing general instructions in regard to appointments and promotions in the State Service.

ORDER NO. E. A. 2093-172—E. A. 14-21-7, DATED 28th NOVEMBER 1921.

Government are pleased to issue the following supplementary instructions for regulating the filling up of vacancies occurring in the ministerial ranks of the superior service.

2. All ministerial appointments will for the purposes of this order be divided into four classes as below:—

(1) Appointments carrying a pay not exceeding Rs. 20.
(2) Appointments carrying a pay exceeding Rs. 20 but not exceeding Rs. 30.
(3) Appointments carrying a pay exceeding Rs. 30 but not exceeding Rs. 40.
(4) Appointments carrying a pay exceeding Rs. 40.

3.(*a*) All vacancies occurring in class (1) shall be filled up by direct recruitment.

(*b*) Out of every three vacancies occurring in each of the other classes, the first two shall be filled up by direct recruitment and the third by promotion of qualified candidates from class 1, 2 or 3 respectively.

Posts on progressive salaries will be treated as falling in the class in which the pay granted to the candidate on appointment falls. Ordinarily, direct recruitment will be only to the posts on the lowest pay in each class. When vacancies occur in posts on higher pay, the officials on lower pay in the same class may be promoted seriatim and the vacancy caused by the promotion of the official on the lowest pay in that class may be filled up by direct recruitment. But candidates who are shown by the Central Recruitment Board in their lists as eligible to salary higher than the minimum of a class may be appointed on such higher salary. For example, a graduate in Arts and in Law may be shown in the Board's lists as eligible to a post on Rs. 60 and it will be open to an officer to appoint the candidate to a post on Rs. 60 direct, notwithstanding the other instructions in paragraphs 2, 3 and 4 of this order. Also candidates who possess qualifications which entitle them to appointments in a higher class according to para 4 of this order but are willing to accept appointment in a lower class may be appointed on pay higher than the minimum of such lower class.

4. The minimum educational qualifications for direct recruitment to the several classes shall be as follows:—

FOR CLASS 1- A pass in the Lower Secondary Examination or a certificate of having studied in the V Form of a recognised Kannada or English High School.

Note.—In very exceptional cases, candidates who have not passed the Lower Secondary Examination may also be permitted by the Board to be appointed to this class.

FOR CLASS 2.—A completed S. S. L. certificate.

Note.—Those who have passed the Entrance Examination of the Mysore University will be treated as on the same footing as those holding a complete S. S. L. certificate.

FOR CLASS 3- A pass in the first year B. A. Examination of the Mysore University or in the Intermediate Examination of a recognised University.

FOR CLASS 4- A degree of the Mysore University or of any other recognised University.

5. In calculating the proportion of vacancies to be filled up by direct recruitment, all appointments falling within the powers of the sanctioning officer shall be taken into account. For example, all posts between Rs. 25 and Rs. 50 in the Revenue Department, whether in the District, the Sub-Division or the Taluk Offices shall be considered as one cadre, since all these fall within the powers of appointment vested in the Deputy Commissioner.

6. The above rules shall be subject to such other orders as may be passed by Government from time to time prescribing the qualifications required for particular posts.

7. The minimum educational qualifications prescribed in Rule 4 above, as well as the preference to be shown, as a temporary measure, to members of backward communities under para 6 of Government Order No. 1827-80- E. A. G. 308, dated 16th May 1921, wil apply only to recruitment of new candidates to the service. Promotions from lower ranks will be governed by seniority, combined with capacity and character, irrespective of the general educational qualifications of the official or the community to which he belongs.

Passes orders on the systematisation of the scheme of —— tenable in the State and in British India.

READ—

Correspondence euding with Government Order No. 10777-83—Edn. 165-16, dated the 7th May 1921, appointing a committee to submit proposals for revising the various schemes of scholarships awarded in the State.

2. Letter No. H. C. 668 of 1920-21, dated the 4th June 1921, from the Inspector-General of Education submitting the proposals of the special committee constituted in the Government Order read above.

ORDER No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

The question of systematizing the various schemes of scholarships in the State has been under the consideration of Government for some time past. The expenditure on scholarships has been steadily increasing since 1890-91 and has risen from Rs. 21,404 in 1890-91 to Rs. 3,65,398 in 1921-22. Scholarships paid from State Funds may broadly be classified into

(i) those tonable in and outside the State but within British India ; and

(ii) those tenable in foreign countries.

The revision of the scheme of Foriegn scholarships formed the subject of a separate order issued in May 1920. The former may again be subdivided into :

(*a*) those meant for general education comprising the Primary, Secondary and University grades, and

(*b*) those available for technical courses of study in local institutions or for professional courses in institutions in British India.

2. In the early stages, scholarships were provided in the lower grades of education only to women, pupils of the depressed classes and special communities such as the Mahomedans and the Pallegars. In the higher grades, provision was made only in the Arts Colleges for five merit scholarships and a few stipends ranging in value from Rs. 1-8-0 to Rs. 5-0-0 per mensem. In 1914 one hundred scholarships of Rs. 5 each were instituted from Village School Funds to enable intelligent pupils in taluk stations to continue in the IV and V Vernacular standards. So far as technical and professional education was concerned a few stipends were awarded in the local institutions and also in technical and professional colleges in British India for the study of subjects for which no provision existed locally. On the introduction of the Honours Course in the Madras University, Government sanctioned a few scholarships to enable deserving young men to prosecute higher studies in the Colleges outside the State and in 1913, two scholarships were sanctioned for pupils studying Logic in the B. A. Course in Colleges in British India.

With the reorganisation of Industrial, Technical and Women's Education and of the Normal institutions in 1913 and 1914, liberal stipends on a large scale were sanctioned for pupils in the technical and industrial schools and the scholarships provided for girls were also increased. The allotment for women's scholarships has since been augmented by the provision of scholarships tenable in Primary and Lower Secondary classes and in the District Headquarter Girls' Schools sanctioned in 1915 and 1918 respectively. To induce private candidates to undergo the Upper Secondary and the training courses and thus meet the requirements of the Department, Government sanctioned a liberal scale of stipends in 1918.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

With a view to promote education among the educationally backward communities an annual allotment of a lakh of rupees has been made since 1917 for awarding scholarships in all grades of education to members of these communities and of this allotment a sum of Rs. 15,000 was reserved for the depressed classes in the vernacular primary and lower secondary stages and in industrial classes. A further allotment of Rs. 15,000 has also been sanctioned for pupils of the depressed classes for studying English.

3. The Education Committee of the Economic Conference submitted in May 1917 a scheme for the revision of scholarships, the main features of which were that

(i) a total allotment of Rs. 3 lakhs should be provided inclusive of the allotment of Rs. one lakh for scholarships to the backward classes.,

(ii) the scholarships should be classified under two heads, *viz.*, (1) open, *i.e.*, available to all classes on consideration of merit only and (2) close, *i.e.*, reserved for special communal groups on grounds of poverty and merit.

Government considered that the best method of encouraging middle school education was not by increasing the number of scholarships but by making middle school education free. As regards higher grades they directed that merit scholarships for all classes and special scholarships on a community basis for combined merit and poverty might be introduced, and accordingly referred the scheme of scholarships to the Inspector-General of Education for further revision on these lines. The Inspector-General of Education consulted the Board of Education and the scheme sent up by him was referred to the University for opinion regarding the scholarships proposed for University courses. The revised proposals submitted by the Inspector-General of Education, the Board of Education, and the University were considered by Government and with a view to co-ordinate the several schemes of scholarships and to reduce the expenditure on scholarships in view of financial stringency, a Committee composed of the Inspector-General of Education and, representatives of the University, the backward communities, and Women's education was constituted to examine in detail the various schemes of scholarships tenable within and outside the State except Foreign Scholarships and submit detailed proposals.

4. The recommendations of the Committee as regards the general principles for the grant of scholarships are as follows: —

(1) That all scholarships in the Primary and Kannada Lower Secondary grades be abolished except those meant for Depressed Classes which should be administered as a special fund and under special rules.

"(2) That girls' scholarships be made tenable to girls studying in boys' schools also, *i.e.*, that scholarships should not be attached to particular institutions but to grades of Education."

(3) "That the term "widows' scholarships" be omitted and that the funds now given in this behalf be merged in the general scheme of stipends for girls' education to which widows too would be eligible."

(4) "That a separate scale of stipends be instituted for Depressed Class girls" as in statement appended.

(5) "That the full freeships now given to the Depressed Classes and half, freeships to Mahomedans and Pallegars be continued."

(6) "That the allotment to the Maharani's High School be cut down by a third and the balance merged in the general fund for girls' stipends."

(7) "That the backward classes scholarships fund be not reduced."

(8) "That the practice of freeships being attached to scholarships be continued."

(9) "That the number of freeships be reduced in the Entrance Classes from thirty-three and one-third to fifteen per cent and in the High School classes from 20 to 10 per cent, it being presumed that similar reductions will be effected in the University.

(10) That the Aligarh Scholarships be reduced from 7 to 5.

(11) That the Inspector-General of Education be given a reserve fund of Rs. 2,400 to meet cases of exceptional hardship, this fund being available to the University also.

The Committee have also suggested reduction in the number and value of scholarships now in force and recommended the abolition of the District stipends in the University and the Ayurvedic and the Unani scholarships.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

5. Government approve of the recommendations of the Committee set forth above with the following modifications: —

(1) The subject stipends will be continued but the allotment for the purpose will be reduced to Rs. 2,400.

(2) The special district stipends will be restricted to pupils of Shimoga, Kadur and Chitaldrug Districts.

(3) The present scale of freeships will be continued according to existing sanctions but the whole question of freeships will be re-examined and final orders passed in due course after consulting the University.

(4) The merit scholarships in the College of Engineering will be reduced to 8 of Rs. 15 each and the ordinary scholarships tenable in the same institution to 12 of Rs. 10 each per mensem.

(5) Scholarships tenable in the Mysore Tannery and the Mysore Pharmaceuticals will be discontinued and one Agricultural Scholarship of Rs. 40 per mensem for a Degree in Agriculture tenable for 3 years will be awarded instead of 2 of Rs. 35 each.

(6) Scholarships for private pupils in the Upper Secondary Training and Lower Secondary Training classes in the Maharani's College and the Zenana Normal School respectively may not be deleted as proposed but 6 Upper Secondary Training Scholarships of Rs. 12 and 6 Lower Secondary Training Scholarships of Rs. 10 may be retained.

(7) The scheme of scholarships for girls in all grades will be further examined and separate orders passed in due course, the existing scheme being continued for the current year.

The scheme as now sanctioned effects a saving of Rs. 81,864 per annum in the expenditure on scholarships as shown in the accompanying statement.

(4) Name of the person in whose name the note was issued (if known).

384. The loss or destruction of a promissory note shall be further notified by an advertisement both in English and Kannada, which the applicant for a duplicate note shall cause to be inserted in three successive issues of the *Mysore Gazette*. Such notification shall be in the form following, or as near thereto as the circumstances will admit:—

Lost or destroyed (as the case may be).

The Mysore Government Promissory Note No.....of the.....per cent loan of.....for Rs.....originally standing in the name of.....and last endorsed to the proprietor by whom it was never endorsed to any other person, having been lost (or destroyed) notice is hereby given that payment of the above note and the interest thereon have been stopped by the Comptroller to the Government of His Highness the Mahāraja of Mysore and that application is about to be made for the issue of a duplicate in favor of the proprietor. The public are cautioned against purchasing or otherwise dealing with the abovementioned security.

Name of advertiser.
Residence.

385. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller, if satisfied of the loss or destruction of a portion of a note and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, shall, upon the execution of such bond of indemnity (with or without sureties) as is hereinafter mentioned, issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, at the expiration of two years from the date of the insertion of such last advertisement, the Comptroller shall, if satisfied as aforesaid, pass an order directing the treasury where interest is to be made payable upon the execution of such bond of indemnity as is

hereinafter mentioned to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note and also shall, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned should the same be deemed necessary by the Comptroller), a duplicate note in lieu of that so lost or destroyed as aforesaid.

386. The Comptroller may, within six years of the date of an order passed by him under the preceding rule, if he finds sufficient reason, alter or cancel such order and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years, as he may think fit.

387. Indemnity bonds when taken on the issue of a duplicate note or notes shall be for twice the amount of such note or notes and when taken on the issue of orders for payment of interest shall be for twice the amount of interest involved, that is to say, twice the aggregate amount of all back interest accrued due on the note, plus twice the amount of all interest to accrue due thereon during the six years which will have to elapse before the issue of a duplicate note can be made. In simple cases such bonds may be issued by the Comptroller in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500, but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000, or part of Rs. 1,000, will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If, however, the Comptroller considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Advocate a fee of Rs. 32 shall be payable to that officer.

388. The list of securities lost or destroyed, referred to in Section 11 (3) of Regulation IX of 1894, in respect of which an order is made for payment of interest pending the issue of duplicate security, or for the issue of such duplicate security, shall be advertised half-yearly in the *Mysore Gazette*, in the months of January and July or as soon afterwards as may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiration of six years from the date of first publication or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller for payment of interest or issue of a duplicate and the date of publication of the list in which such security was first mentioned.

389. In the case of Government of India notes, the loss should be advertised in three successive issues of the *Gazette of India* and of the Local Government *Gazette* and the applicant should address the Secretary and Treasurer, Bank of Bengal on the subject fully detailing the circumstances attending the loss of the note, the date and the pages of the *Gazette of India* in which his notice appeared, and at the same time furnishing any proof he may possess of the note having been his property. He should also furnish a copy of this communication to the treasury at which interest is payable.

ORDER NO. E. A. 2093-172—E. A. 14-21-7, DATED 28th NOVEMBER 1921.

Government are pleased to issue the following supplementary instructions for regulating the filling up of vacancies occurring in the ministerial ranks of the superior service.

2. All ministerial appointments will for the purposes of this order be divided into four classes as below:—

(1) Appointments carrying a pay not exceeding Rs. 20.
(2) Appointments carrying a pay exceeding Rs. 20 but not exceeding Rs. 30.
(3) Appointments carrying a pay exceeding Rs. 30 but not exceeding Rs. 40.
(4) Appointments carrying a pay exceeding Rs. 40.

3.(*a*) All vacancies occurring in class (1) shall be filled up by direct recruitment.

(*b*) Out of every three vacancies occurring in each of the other classes, the first two shall be filled up by direct recruitment and the third by promotion of qualified candidates from class 1, 2 or 3 respectively.

Posts on progressive salaries will be treated as falling in the class in which the pay granted to the candidate on appointment falls. Ordinarily, direct recruitment will be only to the posts on the lowest pay in each class. When vacancies occur in posts on higher pay, the officials on lower pay in the same class may be promoted seriatim and the vacancy caused by the promotion of the official on the lowest pay in that class may be filled up by direct recruitment. But candidates who are shown by the Central Recruitment Board in their lists as eligible to salary higher than the minimum of a class may be appointed on such higher salary. For example, a graduate in Arts and in Law may be shown in the Board's lists as eligible to a post on Rs. 60 and it will be open to an officer to appoint the candidate to a post on Rs. 60 direct, notwithstanding the other instructions in paragraphs 2, 3 and 4 of this order. Also candidates who possess qualifications which entitle them to appointments in a higher class according to para 4 of this order but are willing to accept appointment in a lower class may be appointed on pay higher than the minimum of such lower class.

4. The minimum educational qualifications for direct recruitment to the several classes shall be as follows:—

FOR CLASS 1- A pass in the Lower Secondary Examination or a certificate of having studied in the V Form of a recognised Kannada or English High School,

Note.—In very exceptional cases, candidates who have not passed the Lower Secondary Examination may also be permitted by the Board to be appointed to this class.

FOR CLASS 2.—A completed S. S. L. certificate.

Note.—Those who have passed the Entrance Examination of the Mysore University will be treated as on the same footing as those holding a complete S. S. L. certificate.

FOR CLASS 3- A pass in the first year B. A. Examination of the Mysore University or in the Intermediate Examination of a recognised University.

FOR CLASS 4- A degree of the Mysore University or of any other recognised University.

5. In calculating the proportion of vacancies to be filled up by direct recruitment, all appointments falling within the powers of the sanctioning officer shall be taken into account. For example, all posts between Rs. 25 and Rs. 50 in the Revenue Department, whether in the District, the Sub-Division or the Taluk Offices shall be considered as one cadre, since all these fall within the powers of appointment vested in the Deputy Commissioner.

6. The above rules shall be subject to such other orders as may be passed by Government from time to time prescribing the qualifications required for particular posts.

7. The minimum educational qualifications prescribed in Rule 4 above, as well as the preference to be shown, as a temporary measure, to members of backward communities under para 6 of Government Order No. 1827-80- E. A. G. 308, dated 16th May 1921, wil apply only to recruitment of new candidates to the service. Promotions from lower ranks will be governed by seniority, combined with capacity and character, irrespective of the general educational qualifications of the official or the community to which he belongs.

Passes orders on the systematisation of the scheme of —— tenable in the State and in British India.

READ—

Correspondence ending with Government Order No. 10777-83—Edn. 165-16, dated the 7th May 1921, appointing a committee to submit proposals for revising the various schemes of scholarships awarded in the State.

2. Letter No. H. C. 668 of 1920-21, dated the 4th June 1921, from the Inspector-General of Education submitting the proposals of the special committee constituted in the Government Order read above.

ORDER No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

The question of systematizing the various schemes of scholarships in the State has been under the consideration of Government for some time past. The expenditure on scholarships has been steadily increasing since 1890-91 and has risen from Rs. 21,404 in 1890-91 to Rs. 3,65,398 in 1921-22. Scholarships paid from State Funds may broadly be classified into

(i) those tenable in and outside the State but within British India ; and

(ii) those tenable in foreign countries.

The revision of the scheme of Foriegn scholarships formed the subject of a separate order issued in May 1920. The former may again be subdivided into :

(*a*) those meant for general education comprising the Primary, Secondary and University grades, and

(*b*) those available for technical courses of study in local institutions or for professional courses in institutions in British India.

2. In the early stages, scholarships were provided in the lower grades of education only to women, pupils of the depressed classes and special communities such as the Mahomedans and the Pallegars. In the higher grades, provision was made only in the Arts Colleges for five merit scholarships and a few stipends ranging in value from Rs. 1-8-0 to Rs. 5-0-0 per mensem. In 1914 one hundred scholarships of Rs. 5 each were instituted from Village School Funds to enable intelligent pupils in taluk stations to continue in the IV and V Vernacular standards. So far as technical and professional education was concerned a few stipends were awarded in the local institutions and also in technical and professional colleges in British India for the study of subjects for which no provision existed locally. On the introduction of the Honours Course in the Madras University, Government sanctioned a few scholarships to enable deserving young men to prosecute higher studies in the Colleges outside the State and in 1913 two scholarships were sanctioned for pupils studying Logic in the B. A. Course in Colleges in British India.

With the reorganisation of Industrial, Technical and Women's Education and of the Normal institutions in 1913 and 1914, liberal stipends on a large scale were sanctioned for pupils in the technical and industrial schools and the scholarships provided for girls were also increased. The allotment for women's scholarships has since been augmented by the provision of scholarships tenable in Primary and Lower Secondary classes and in the District Headquarter Girls' Schools sanctioned in 1915 and 1918 respectively. To induce private candidates to undergo the Upper Secondary and the training courses and thus meet the requirements of the Department, Government sanctioned a liberal scale of stipends in 1918.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

With a view to promote education among the educationally backward communities an annual allotment of a lakh of rupees has been made since 1917 for awarding scholarships in all grades of education to members of these communities and of this allotment a sum of Rs. 15,000 was reserved for the depressed classes in the vernacular primary and lower secondary stages and in industrial classes. A further allotment of Rs. 15,000 has also been sanctioned for pupils of the depressed classes for studying English.

3. The Education Committee of the Economic Conference submitted in May 1917 a scheme for the revision of scholarships, the main features of which were that

(i) a total allotment of Rs. 3 lakhs should be provided inclusive of the allotment of Rs. one lakh for scholarships to the backward classes.,

(ii) the scholarships should be classified under two heads, *viz.*, (1) open, *i.e.*, available to all classes on consideration of merit only and (2) close, *i.e.*, reserved for special communal groups on grounds of poverty and merit.

Government considered that the best method of encouraging middle school education was not by increasing the number of scholarships but by making middle school education free. As regards higher grades they directed that merit scholarships for all classes and special scholarships on a community basis for combined merit and poverty might be introduced, and accordingly referred the scheme of scholarships to the Inspector-General of Education for further revision on these lines. The Inspector-General of Education consulted the Board of Education and the scheme sent up by him was referred to the University for opiuion regarding the scholarships proposed for University courses. The revised proposals submitted by the Inspector-General of Education, the Board of Education, and the University were considered by Government and with a view to co-ordinate the several schemes of scholarships and to reduce the expenditure on scholarships in view of financial stringency, a Committee composed of the Inspector-General of Education and representatives of the University, the backward communities, and Women's education was constituted to examine in detail the various schemes of scholarships tenable within and outside the State except Foreign Scholarships and submit detailed proposals.

4. The recommendations of the Committee as regards the general principles for the grant of scholarships are as follows:—

(1) "That all scholarships in the Primary and Kannada Lower Secondary grades be abolished except those meant for Depressed Classes which should be administered as a special fund and under special rules.

"(2) That girls' scholarships be made tenable to girls studying in boys' schools also, *i.e.*, that scholarships should not be attached to particular institutions but to grades of Education."

(3) "That the term "widows' scholarships" be omitted and that the funds now given in this behalf be merged in the general scheme of stipends for girls' education to which widows too would be eligible."

(4) "That a separate scale of stipends be instituted for Depressed Class girls" as in statement appended.

(5) "That the full freeships now given to the Depressed Classes and half freeships to Mahomedans and Pallegars be continued."

(6) "That the allotment to the Maharani's High School be cut down by a third and the balance merged in the general fund for girls' stipends."

(7) "That the backward classes scholarships fund be not reduced."

(8) "That the practice of freeships being attached to scholarships be continued."

(9) "That the number of freeships be reduced in the Entrance Classes from thirty-three and one-third to fifteen per cent and in the High School classes from 20 to 10 per cent, it being presumed that similar reductions will be effected in the University.

(10) That the Aligarh Scholarships be reduced from 7 to 5.

(11) That the Inspector-General of Education be given a reserve fund of Rs. 2,400 to meet cases of exceptional hardship, this fund being available to the University also.

The Committee have also suggested reduction in the number and value of scholarships now in force and recommended the abolition of the District stipends in the University and the Ayurvedic and the Unani scholarships.

No. 2210-24—EDN. 532-20-4, DATED 3RD DECEMBER 1921.

5. Government approve of the recommendations of the Committee set forth above with the following modifications: —

(1) The subject stipends will be continued but the allotment for the purpose will be reduced to Rs. 2,400.

(2) The special district stipends will be restricted to pupils of Shimoga, Kadur and Chitaldrug Districts.

(3) The present scale of freeships will be continued according to existing sanctions but the whole question of freeships will be re-examined and final orders passed in due course after consulting the University.

(4) The merit scholarships in the College of Engineering will be reduced to 8 of Rs. 15 each and the ordinary scholarships tenable in the same institution to 12 of Rs. 10 each per mensem.

(5) Scholarships tenable in the Mysore Tannery and the Mysore Pharmaceuticals will be discontinued and one Agricultural Scholarship of Rs. 40 per mensem for a Degree in Agriculture tenable for 3 years will be awarded instead of 2 of Rs. 35 each.

(6) Scholarships for private pupils in the Upper Secondary Training and Lower Secondary Training classes in the Maharani's College and the Zenana Normal School respectively may not be deleted as proposed but 6 Upper Secondary Training Scholarships of Rs. 12 and 6 Lower Secondary Training Scholarships of Rs. 10 may be retained.

(7) The scheme of scholarships for girls in all grades will be further examined and separate orders passed in due course, the existing scheme being continued for the current year.

The scheme as now sanctioned effects a saving of Rs. 81,864 per annum in the expenditure on scholarships as shown in the accompanying statement.

If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, at the expiration of two years from the date of the insertion of such last advertisement, the Comptroller shall, if satisfied as aforesaid, pass an order directing the treasury where interest is to be made payable upon the execution of such bond of indemnity as is

hereinafter mentioned to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note and also shall, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned should the same be deemed necessary by the Comptroller), a duplicate note in lieu of that so lost or destroyed as aforesaid.

386. The Comptroller may, within six years of the date of an order passed by him under the preceding rule, if he finds sufficient reason, alter or cancel such order and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years, as he may think fit.

In simple cases such bonds may be issued by the Comptroller in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500, but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000, or part of Rs. 1,000, will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If, however, the Comptroller considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Advocate a fee of Rs. 32 shall be payable to that officer.

388. The list of securities lost or destroyed, referred to in Section 11 (3) of Regulation IX of 1894, in respect of which an order is made for payment of interest pending the issue of duplicate security, or for the issue of such duplicate security, shall be advertised half-yearly in the *Mysore Gazette*, in the months of January and July or as soon afterwards as may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiration of six years from the date of first publication or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller for payment of interest or issue of a duplicate and the date of publication of the list in which such security was first mentioned.

NOTIFICATION.

No. 272—L. C., dated 21st November 1921.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill to amend the Indian Succession Act, 1865, (as applied to Mysore) is published for general information with the statement of objects and reasons.

By Order,
C. ABDUL GHANI,
Secretary, Mysore Legislative Council.

Bill to amend the Indian Succession Act, 1865, as applied to Mysore.

Whereas it is expendient to amend the Indian Succession Act, 1865, as applied to Mysore; His Highness the Maharaja is pleased to enact as follows :—

In Section 256 of the Act, for the words "Every person to whom any grant of administration shall be committed" the words and figures" "Every person to whom any grant of letters of administration other than a grant under Section 212 is committed" shall be substituted. Amendment of Section 256

Statement of objects and reasons.

As Section 256 of Indian Succession Act, 1865, as extended to Mysore stands at present, it is liable to be construed as requiring security bonds in both Administration and Probate cases from the grantees thereof. There was a conflict of decisions upon this point in the British Indian High Courts and it has been set at rest in British India by the amending Act VI of 1889.

The Honorary Secretary to the South Mysore Planters' Association has urged for a similar amendment of our Act. Accordingly the present Bill has been drafted to bring our law into conformity with the British Indian Act and to clearly indicate that in case of letters of administration only shall a security bond be demanded.

Residence.

385. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller, if satisfied of the loss or destruction of a portion of a note and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, shall, upon the execution of such bond of indemnity (with or without sureties) as is hereinafter mentioned, issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, at the expiration of two years from the date of the insertion of such last advertisement, the Comptroller shall, if satisfied as aforesaid, pass an order directing the treasury where interest is to be made payable upon the execution of such bond of indemnity as is hereinafter mentioned to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note and also shall, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned should the same be deemed necessary by the Comptroller), a duplicate note in lieu of that so lost or destroyed as aforesaid.

386. The Comptroller may, within six years of the date of an order passed by him under the preceding rule, if he finds sufficient reason, alter or cancel such order and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years, as he may think fit.

387. Indemnity bonds when taken on the issue of a duplicate note or notes shall be for twice the amount of such note or notes and when taken on the issue of orders for payment of interest shall be for twice the amount of interest involved, that is to say, twice the aggregate amount of all back interest accrued due on the note, plus twice the amount of all interest to accrue due thereon during the six years which will have to elapse before the issue of a duplicate note can be made. In simple cases such bonds may be issued by the Comptroller in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500, but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000, or part of Rs. 1,000, will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If, however, the Comptroller considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Advocate a fee of Rs. 32 shall be payable to that officer.

388. The list of securities lost or destroyed, referred to in Section 11 (3) of Regulation IX of 1894, in respect of which an order is made for payment of interest pending the issue of duplicate security, or for the issue of such duplicate security, shall be advertised half-yearly in the *Mysore Gazette*, in the months of January and July or as soon afterwards as

may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiration of six years from the date of first publication or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller for payment of interest or issue of a duplicate and the date of publication of the list in which such security was first mentioned.

389. In the case of Government of India notes, the loss should be advertised in three successive issues of the *Gazette of India* and of the Local Government *Gazette* and the applicant should address the Secretary and Treasurer, Bank of Bengal on the subject fully detailing the circumstances attending the loss of the note, the date and the pages of the *Gazette of India* in which his notice appeared, and at the same time furnishing any proof he may possess of the note having been his property. The Mysore Government Promissory Note No.....of the.. ....per cent loan of.....for Rs.....originally standing in the name of.....and last endorsed to the proprietor by whom it was never endorsed to any other person, having been lost (or destroyed) notice is hereby given that payment of the above note and the interest thereon have been stopped by the Comptroller to the Government of His Highness the Maharaja of Mysore and that application is about to be made for the issue of a duplicate in favor of the proprietor. The public are cautioned against purchasing or otherwise dealing with the abovementioned security.

Name of advertiser.
Residence.

385. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller, if satisfied of the loss or destruction of a portion of a note and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, shall, upon the execution of such bond of indemnity (with or without sureties) as is hereinafter mentioned, issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, at the expiration of two years from the date of the insertion of such last advertisement, the Comptroller shall, if satisfied as aforesaid, pass an order directing the treasury where interest is to be made payable upon the execution of such bond of indemnity as is hereinafter mentioned to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note and also shall, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned should the same be deemed necessary by the Comptroller), a duplicate note in lieu of that so lost or destroyed as aforesaid.

386. The Comptroller may, within six years of the date of an order passed by him under the preceding rule, if he finds sufficient reason, alter or cancel such order and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years, as he may think fit.

387. Indemnity bonds when taken on the issue of a duplicate note or notes shall be for twice the amount of such note or notes and when taken on the issue of orders for payment of interest shall be for twice the amount of interest involved, that is to say, twice the aggregate amount of all back interest accrued due on the note, plus twice the amount of all interest to accrue due thereon during the six years which will have to elapse before the issue of a duplicate note can be made. In simple cases such bonds may be issued by the Comptroller in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500, but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000, or part of Rs. 1,000, will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If, however, the Comptroller considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Advocate a fee of Rs. 32 shall be payable to that officer.

388. The list of securities lost or destroyed, referred to in Section 11 (3) of Regulation IX of 1894, in respect of which an order is made for payment of interest pending the issue of duplicate security, or for the issue of such duplicate security, shall be advertised half-yearly in the *Mysore Gazette*, in the months of January and July or as soon afterwards as

may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiration of six years from the date of first publication or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller for payment of interest or issue of a duplicate and the date of publication of the list in which such security was first mentioned.

389. In the case of Government of India notes, the loss should be advertised in three successive issues of the *Gazette of India* and of the Local Government *Gazette* and the applicant should address the Secretary and Treasurer, Bank of Bengal on the subject fully detailing the circumstances attending the loss of the note, the date and the pages of the *Gazette of India* in which his notice appeared, and at the same time furnishing any proof he may possess of the note having been his property. OFFICIAL PAPERS.

NOTIFICATION.

No. 2231—*Edn.*, 188-19, *dated 5th December* 1921.

The accompanying draft of rules relating to grants to educational institutions is published for general information. The Government would be glad to receive any suggestions thereon before the 1st February 1922.

By Order,
K. MATTHAN,
Chief Secretary to Government.

1. GENERAL RULES.

I. With the object of maintaining, extending and improving the means of secular instruction in the State a sum of money will be annually allotted by Government for distribution as grant-in-aid to schools and other educational institutions under private management which impart sound secular instruction subject to certain conditions hereinafter specified.

II. The following general conditions shall apply to all grants-in-aid under this Code.—

(*a*) All grants shall be given impartially and on principles of strict religious neutrality without reference to any religious instruction.

(*b*) Every grant shall be given with due consideration to the requirements of each locality and to the funds available.

(*c*) No grant shall be sanctioned to or in connection with any institution which is not a recognised institution, *i.e.*, which is not conducted in conformity with the provisions of this Code and the Rules and Circulars of the Education Department issued from time to time.

(*d*) No school shall be entitled to a grant-in-aid under these rules unless it has an income from endowments, subscriptions, etc., of a permanent nature equal to one-fourth of the anticipatad expenditure of the school provided that this rule shall apply to the schools already in existence as shown in the Appendix "A" hereto attached only after the expiry of three years from this date.

(*e*) Grant-in-aid schools shall be open to regular inspection and to a full audit of their accounts, vouchers being produced for all disbursements.

(*f*) The school shall be under the management of one or more persons who in the capacity of Proprietors, Trustees, Managers or Members of a Committee, are prepared to undertake the superintendence of the school, for the proper application of its funds and to be answerable for its permanence. When the management rests in a body, the manner of their election or appointment, the conditions of tenure of their office and their duties and powers should be prescribed by rules.

(*g*) The Department must be satisfied that—

(i) the buildings and premises are healthy, in good repair, properly drained and ventilated and contain sufficient accommodation;

(ii) each class is provided with the standard of furniture and apparatus prescribed by the Department.

(*h*) No portion of the income of the institution shall be used for other than strictly educational purposes;

(*i*) No school which has been opened without the previous sanction of the Inspector-General shall be eligible for aid unless and until it has had an uninterrupted existence of two years.

(*j*) The total amount drawn by any institution in the form of grants shall not exceed the difference between income and expenditure.

(*k*) All grants to educational institutions under Rule IV (*a*) shall be guaranteed to the manager for a definite period which shall not be less than six months or more than three years and on the expiry of which the amount of grant may be renewed, revised or withdrawn.

(*l*) Grants are liable to be reduced or withdrawn at any time if the conditions of recognition under the Standing Orders are violated or cease to be fulfilled or if the Standard of income and expenditure on which they have been sanctioned is departed from.

(*m*) All appointments and changes in the staff of the institution shall be reported to the Inspector-General of Education with a statement of qualification and pay, and it shall be competent to the Inspector-General of Education to forbid the employment of any teacher who is not duly qualified or who is on account of defect of character, considered to be unfit to be a teacher.

(*n*) Government reserve to themselves the right to forbid or to prescribe the use of any book or books in aided schools and colleges. Managers of schools shall as a condition of receiving grants-in-aid from public funds be required not to use, without the express sanction of the Inspector-General of Education, any text-book which is not included in the authorised lists of text-books, which may from time to time be issued by him.

(*o*) No grant for general purposes shall be withdrawn before the expiry of its guaranteed period without the management having had an opportunity of stating reasons why it should not be withdrawn. Notwithstanding this or any other condition in the Code, Government reserve the exercise in their own discretion of their right to withdraw, suspend or reduce any grant.

(*p*) The teaching staff of an institution in receipt of a grant shall not engage in political agitation directed against the authority of Government or in any agitation or movement which is or may be accompanied by or result in ill-feeling between different sections of the community or give expression in any way to opinions which may excite feelings of political disloyalty or disaffection.

(*q*) If in any area there is but one institution of a certain grade, and that a denominational one, in receipt of a grant, attendance at religious instruction in such a school shall be voluntary, such classes being held either in the first or last period of the time-table. It shall be open to parents on a written requisition to the Headmaster to withdraw their children from such classes. Attendance in these classes shall not count for general attendance.

III. The grants that may be given to recognised institutions under this Code are:—

(i) Salary grants, *i.e.*, grants equal to half the salary of fully trained and full-time teachers.

(ii) Ordinary grants, *i.e.*, grants to supplement the income of the school to meet the total expenditure.

(v) Stipend grants, *i.e.*, grants for stipends to teachers under training and for scholars belonging to particular classes.

(vi) Hostel grants, *i.e.*, grants towards the pay of the manager and the educational supervision of hostels.

(vii) Library and reading room grants (suspended for the present).

SALARY GRANTS AND ORDINARY GRANTS.

IV. The grants referred to in Rule III (i) and (ii) above shall be paid at the rate and under the conditions hereinafter specified:—

A. *Elementary, Middle and High Schools.*

1. The amount of grant allotted to all teachers in Elementary, Vernacular, Middle and High Schools will be equal to half the salary paid by the school in cash up to a maximum of the scale of staff and pay laid down for Government Schools.

2. The full salary grant will be paid only in the case of trained and qualified teachers, the rates for untrained teachers being only 75 per cent of the rates for trained teachers. For purposes of this rule untrained teachers who have put in a term of ten years in any recognised school shall be deemed to be trained teachers.

3. The sanctioning authority may, however, increase the grant for any teacher by not more than 50 per cent for particular areas, or for girls' schools or schools for the depressed classes. In the first case a report should be made to the Government of the exceptional circumstances under which the grant is to be increased.

4. These Grant-in-aid Rules shall not apply to aided V. E. Schools started in villages by the villagers with the scale of grants fixed in G. O. No. 12082-4—Edn. 304-13-3 of 30th May 1914.

DEWAN.—Gentlemen, before we begin the proceedings of this morning it is my pleasant duty to announce to you the impending visit of His Royal Highness the Prince of Wales to our State. His Royal Highness the Prince of Wales will be on Indian shores the day after tomorrow. According to the programme already published, he is to arrive at Bangalore, on 18th January 1922, and Mysore, the following day. He is spending four days in Mysore, including two days in camp and will be taking his departure on the 23rd January.

It is only fitting that this Council, which is the duly constituted legislature of the State, consisting as it does of both officials and non-officials, should unanimously accord a hearty, right royal welcome to His Royal Highness to our State. His Highness hopes that the people of the State will join in according to His Royal Highness the Prince of Wales, a loyal respectful and hearty welcome to Mysore in keeping with the past traditions of the State. I now put the resolution to the Council, which I request you to pass standing.

RAJASABHABHUSHANA DEWAN BAHADUR K. P. PUTTANNA CHETTY, C.I.E.—On behalf of the Council, I beg most heartily to support the resolution put from the Chair. It is a matter of great gratification to the people of Mysore that His Royal Highness the Prince of Wales, like his august father, has included Mysore in his itinerary and it is a matter of supreme satisfaction that he will visit the two capital Cities, Mysore and Bangalore and enjoy the shooting in our splendid forests. The people acting under the direction of His Highness the Maharaja will be only too happy to give the heir to the British throne the welcome befitting his great rank and station in life. His Royal Highness has endeared himself to the people of all the countries which he has visited and we have no doubt that his winning personality, his charming manners and his great tact in dealing with men and things will be such as to win for him, from the people of Mysore, the same high regard, esteem and affection which he has won throughout his travels. With very great pleasure, on behalf of this Council, I support the resolution.

The resolution was unanimously passed, all the members standing.

I. The Secretary's Report.

The Secretary reported to the Council:—

Rajamanthrapravina P. Raghavendra Rao replied.

(*a*) and (*b*). The number of females of child-bearing age, taking the latter to be from 15 to 45 years, was, according to the Census of 1911 .... 1,285,200.

The corresponding figures for 1921 are not yet available, and so no comparison is possible.

(*c*) The number of midwives employed in the State at the close of 1920 was 152. They are provided with the necessary equipment.

(*d*)

YEAR	AVERAGE NUMBER OF CASES CONDUCTED BY EACH MIDWIFE	PERCENTAGE OF DEATHS
1918	62	·82
1919	67	·65
1920	70	·60

(*e*) No such classification of deaths based on causes has been maintained.

Mr. M. Ramachandra Rao asked.

2. Will the Government be pleased to state—

(*a*) Whether the final survey of the Tramway scheme for Bangalore has been completed and, if so, what the estimated cost is?

(*b*) If it is not completed yet, when it would be completed?

(*c*) Whether the Government propose to carry out the scheme from the second loan which has been over-subscribed already?

Mr. A. R. Banerji, C.S.I., C.I.E. replied.

Government have decided that the Bangalore Electric Tramways scheme might be held in abeyance, as there is no possibility of the work being undertaken by Government from State Funds within the next five years on financial grounds.

Mr. M. Ramachandra Rao asked.

3. Will the Government be pleased to state—

(*a*) What amounts have been spent by the Bangalore City Municipality on drainage works in the old City and in each of the extensions during the past five years?

(*b*) When the drainage scheme of the old City is going to be taken up for execution and how long it would take for completion?

Mr. Mir Hamza Husein replied.

(*a*) The information is laid on the table. (APPENDIX A.)

(*b*) This is still under the consideration of Government.

Mr. M. Subbiah asked.

4. Will the Government be pleased to state—

(*a*) If it is a fact that one Subramanya Jois of Narayanpur under Krishnarajasagara has been given 40 acres of wet-land worth Rs. 800 per acre in exchange for 40 acres of dry-land worth Rs. 30 per acre, although the dry-lands in question do not come under submersion? The survey numbers so awarded are Kamenahalli S. Nos. 265, 266, 267, 268 comprising 8 acres and 10 guntas, Sonthanahalli S. Nos. 50, 62, 88, 89, 90, 91, 92 comprising 22 acres, 35 guntas. The rest are in Narayanpur and Keggeri.

NOTIFICATION.

No. 272—L. C., dated 21st November 1921.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill to amend the Indian Succession Act, 1865, (as applied to Mysore) is published for general information with the statement of objects and reasons.

By Order,
C. ABDUL GHANI,
Secretary, Mysore Legislative Council.

Bill to amend the Indian Succession Act, 1865, as applied to Mysore.

Whereas it is expendient to amend the Indian Succession Act, 1865, as applied to Mysore; His Highness the Maharaja is pleased to enact as follows:—

Amendment of Section 256

In Section 256 of the Act, for the words "Every person to whom any grant of administration shall be committed" the words and figures" "Every person to whom any grant of letters of administration other than a grant under Section 212 is committed" shall be substituted.

Statement of objects and reasons.

As Section 256 of Indian Succession Act, 1865, as extended to Mysore stands at present, it is liable to be construed as requiring security bonds in both Administration and Probate cases from the grantees thereof. There was a conflict of decisions upon this point in the British Indian High Courts and it has been set at rest in British India by the amending Act VI of 1889.

The Honorary Secretary to the South Mysore Planters' Association has urged for a similar amendment of our Act. Accordingly the present Bill has been drafted to bring our law into conformity with the British Indian Act and to clearly indicate that in case of letters of administration only shall a security bond be demanded.

(2) Such of the contributions for buildings as still remain unspent will be utilised for the construction of buildings in the order of urgency as the budget grants for the purpose permit and in accordance with a suitable programme.

If in either case the parties desire the refund of their contributions, the amounts will be refunded.

Mr. B. N. Vijayadeva asked.

(*e*) If not, why not?

(*f*) Whether the amount has been made good; if not, why not?

Mr. Mir Hamza Husein replied.

(*a*) Yes.

(*b*) to (*f*). The Government have no definite information on the subject, but it is understood that the matter is under the investigation of the Municipal Council.

III. BLLS.

1. The Mysore Leper Bill.

RAJAMANTRAPRAVINA P. RAGHAVENDRA RAO.—Sir, I rise to move that leave be granted to introduce the Mysore Leper Bill.

The question of introducing measures to control the lepers in the State has been under consideration for sometime past. In 1915, Government ordered that the proposal to introduce legislation for the compulsory segregation of lepers might lie over, and, in a subsequent order of the same year, they observed that the lepers might be placed under some kind of observation, and requested the Sanitary Commissioner and the Deputy Commissioners of Districts to suggest measures which were calculated to give effect to that intention. It took two years to receive the suggestions of the Deputy Commissioners, and in submitting them to Government, the Sanitary Commissioner observed that, while some of the measures suggested were impractical, and others involved very heavy cost, the compulsory segregation of lepers by statute would be very unpopular and exceedingly difficult to put into practice.

Doubtless, members are aware that in the sister States of Travancore and Cochin, Regulations for the control of lepers have existed for sometime already. With a view to ascertain the terms of these Regulations, they were examined, and it was seen that they provided only for the segregation and treatment of pauper lepers and the control of lepers following certain callings. It was suggested at the time that the laws in force in British India and in the State of Baroda might also be examined. A comparison of the British Indian Act and the Regulations in force in the Indian States above named has shown that the provisions in all of them are identical, only slight variations being made to suit local conditions.

A draft, based mainly on the British Indian Act, was prepared in the Legislative Branch and referred to the present Sanitary Commissioner for opinion. He submitted that to attain the object in view, *viz.*, the compulsory segregation of pauper lepers and the prevention of lepers from pursuing certain callings, the maintenance of a list of all lepers, pauper or otherwise, resident in any area, was necessary, and accordingly suggested that a provision might be made in the draft Bill for the registration of all lepers. It was also suggested that in the case of lepers, who were not paupers but who were at the same time unable to take care of themselves or to be looked after by friends and relations so as to prevent the spread of the disease, they may be sent to the Asylum if a Magistrate was satisfied on the report of a Police or a Sanitary Officer of sufficient rank, and after holding an inquiry it was found that it was necessary to do so. The draft Bill was next forwarded to the Government Advocate for his scrutiny and certain amendments were suggested by him in order to remove certain defects noticed by him in it and also to make the working of the Regulation cause as little harassment as possible.

The Bill as now presented to the members embodies all the amendments suggested by the various authorities concerned and appears to meet the requirements of the time.

As members are aware, leprosy is a disease which afflicts mankind in a terrible and dangerous form. Recent scientific investigations have revealed the fact that it is due to the action of a specific bacillus which has been isolated. At one time, and not so very long ago either, there was an idea that the disease was attributable to the use of an exclusive fish diet, but this theory does not receive any countenance at present. Leprosy seems to have existed from very ancient times and appears to have baffled the attempts of the physicians of all ages to cure it. In recent years, various cultural and pharmaceutical preparations have been tried, but only cautious reports of cure have been received and that only in a very few cases. It can, therefore, be said, as in the case of another dreadful disease tuberculosis, that the cure is neither known nor certain.

The disease is insidious and deadly and persons who deal with lepers are exposed to great risks. The lot of lepers is an appalling one and while it deserves all the sympathy that can be given still it behoves people who come into contact with lepers, to exercise all the care they can to guard against contagion. In this connection, I may refer to the heroism of the Jesuit Priest, Father Damien who did magnificent work among the lepers in the Hawaii Islands about two decades ago and his subsequent tragic death. It behoves every community to see that individuals suffering from this dire disease are properly segregated and taken care of in such a manner as to cause the least menace to the community at large. It is on account of these considerations that it has been considered necessary to introduce legislation in this behalf. No executive order of Government can possibly avail in such matters and it is only with the authority of statutory enactment that something can be attempted.

I do not think it is necessary for me to tax the patience of the members by a further disquisition on this subject. So, with these few remarks, I beg to move that leave be granted to introduce the Mysore Leper Bill.

MR. B. RAMASWAMAIYA.—I beg to second the motion.

RAJAKARYAPRASKTHA RAO BAHADUR M. SHAMA RAO.—I do not think there will be any opposition to this.

The motion was then put to vote and carried.

2. BILL TO AMEND THE INDIAN SUCCESSION ACT.

(As applied to Mysore)

MR. MIR HAMZA HUSEIN.—Sir, section 256 of the Indian Succession Act as applied to Mysore runs as follows:—

"Every person to whom any grant of administration shall be committed shall give a bond to the Judge of the District Court, to enure for the benefit of the Judge

for the time being with one or more surety or sureties, engaging for the due collection, getting in or administering the estate of the deceased, which bond shall be in such form as the Judge shall from time to time by any general or special order direct".

The use of the words 'grant of administration' in the section led to a doubt in British India as to whether a security bond was to be required in both administration and probate cases from the grantees thereof or in administration cases only. There was a difference of opinion between the Madras and the Calcutta High Courts in this matter, the former restricting the section to the administration cases only and the latter applying it to both classes of cases. This conflict of decisions between the two High Courts led to the passing of the amending Act VI of 1889 of the British Indian Legislature which introduced the words 'letters of' before the word 'administration' in the section, thus making it clear that in letters of administration cases only security was required to be furnished.

The question however was not raised in our Courts till recently and so the amendment of the Act, as in force in our State, was not undertaken. The question has since been raised by the South Mysore Planters' Association and the Government recognise the necessity to amend the section. A Bill has accordingly been prepared on the lines of the Government of India Act of 1889 and opportunity has also been taken to exclude from the scope of the section cases of limited grants under section 212.

With these remarks, I beg to move that leave be granted to introduce the Bill to amend the Succession Act.

Mr. R. N. S. Iyngar.—Sir, I beg to second the motion.

The motion was put to vote and carried.

3. The Mysore Petroleum Bill.

Rajamantrapravina P. Raghavendra Rao.—Sir, at the meeting of the Legislative Council, held on the 27th June last, leave was granted to introduce the Mysore Petroleum Bill. Copies of the proposed Bill have been printed and circulated since to the members. I have nothing to add to what I said at the time leave was granted to introduce the Bill and so I now beg leave to move that the Bill be taken as read in Council.

Mr. K. Matthan.—Sir, I beg to second the motion.

The motion was put to vote and carried.

Rajamantrapravina P. Raghavendra Rao.—Sir, I beg to move that the Bill be referred to a Select Committee consisting of—

(1) Mr. Cadambi.
(2) ,, K. Matthan.
(3) ,, Venkataramaiya.
(4) Mr. Ananthiah Setty.
(5) ,, Abdhur Rahmon.
(6) The Govt. Advocate and myself.

Mr. K. Matthan.—Sir, I beg to second the motion.

The motion was put to vote and carried.

4. The Identification of Prisoners Bill.

Mr. A. R. Banerji, C.S.I., C.I.E.—Sir, the motion that stands in my name is similar to the one that has been carried by the Council. I beg to move that the 'Bill for the Identification of prisoners' be read in Council. On the 27th June last, my learned colleague Mr. Mir Hamza Husein explained the main provisions of the Bill, which followed exactly the lines of the British Act, XXIII of 1920. At this stage I do not think it is necessary for me to say very much more. I therefore beg to move that the Bill for the Identification of Prisoners be read in Council.

Mr. A. Subramanya Iyer.—Sir, I beg to second the motion.

The motion was put to vote and carried.

(6) Mr. A. R. BANERJI, C.S.I., C.I.E.—Sir, I beg to move that the Bill be referred to a Select Committee consisting of the following gentlemen :—

1. Mr. A. Subramanya Iyer.
2. Dr. H. B. Mylvaganam.
3. Mr. K. P. Puttanna Chetty.
4. „ C. S. Balasundaram Iyer.
5. Mr. H. Chenniah.
6. „ H. Venkatramaiya.
7. „ R. N. S. Iyengar, and myself.

MR. A. SUBRAMANYA IYER.—Sir, I beg to second the motion.

The motion was put to vote and carried.

5. The Mysore Prevention of Adulteration Bill.

MR. MIR HAMZA HUSEIN.—Sir, the Bill to prevent the adulteration of food stuffs, which was read in Council and referred to a Select Committee at the meeting of the Council held on 29th March 1921, has since been considered by the Select Committee and their report published in the Gazette. In presenting the report of the Select Committee and the Bill as amended by them for consideration in this Council, I wish to point out that the two amendments suggested by them do not affect the principle of the Bill, and one of them, *viz.*, the omission of proviso (iii) to clause 5(1), is calculated to ensure that food stuffs offered for sale are on no account adulterated so as not to be up to the standard of purity prescribed, whether with or without notice to the purchaser. Mr. C. S. Doraswami Iyer dissented from the view of the majority of the members of the Select Committee in regard to this proviso, and urged its retention for reasons explained in his minute. The point was discussed at length in the Select Committee, with particular reference to the practice obtaining in the bazaar for shopkeepers to sell adulterated ghee with the labels 'Ghee mixed with oil' 'Ghee mixed with fat' and so on, and the majority of the members considered that even with such a notice to the purchaser, sale of such adulterated stuff should not be permitted. *Per contra*, it was argued by Mr. Doraswamy Iyer, that the admixtures referred to and other similar ones may be required for particular purposes by purchasers and that there is no harm in a vendor putting them up for sale, with clear notice of their nature and quality, as thereby he practises no deception and the purchaser is not in fact deceived, when he knowingly buys the stuff. After considering all aspects of the matter, the Select Committee held that since the object of the Bill is to make the sale of adulterated food impossible, particularly of milk, cream, butter, etc., referred to in clause 5 (1) (*d*), in regard to which standards of purity are to be prescribed by Government, admixtures such as those alluded to should on no account be allowed to be sold, as otherwise under the cloak of giving notice, tradesmen can evade the law and frustrate the very object of Government in introducing the measure.

It is not necessary for me to go into the other provisions of the Bill, as I have already explained the scope of the Bill when asking for leave to introduce it in the Council. So I now beg to move that the report of the Select Committee and the Bill as amended by them be taken into consideration.

MR. B. RAMASWAMAIYA.—Sir, I beg to second the motion.

The motion was put to vote and carried.

MR. MIR HAMZA HUSEIN.—Sir, since no further amendments to the Bill have been proposed, I next beg to move that the Bill as amended by the Select Committee be passed.

MR. B. RAMASWAMAIYA.—Sir, I beg to second the motion.

The motion was put to vote and carried.

6. Bill further to amend the Mysore Registration Regluation, 1903.

MR. MIR HAMZA HUSEIN.—Sir, as explained by my learned colleague, the Second Member of Council, when asking for leave to introduce the Bill at the meeting of Council on the 29th March last, provision is made in the amending Bill for the payment of Registration fees either in cash or by means of stamps affixed to the document, as the Government may from time to time direct.

At the meeting of the Council held on the 29th June, the Bill wa Council, and on the motion of my colleague, it was decided not to refer th Select Committee as it involved the amendment of a single section. now in the last stage of the Bill and as no amendment to the Bill has been I beg to move, under Rule 45 of the Rules for the conduct of busines Council, that the Bill be passed.

MR. K. MATTHAN.—Sir, I beg to second the motion.

The motion was put to vote and carried.

7. Bill to amend the Mysore Police Regulation, 1908.

MR. A. R. BANERJI, C.S.I., C.I.E.—Sir, I beg to move that the Bill b This is a very simple amendment Bill, which as explained by my learned on the 27th June last at the meeting of this Council, relates to only one Section 56 of the existing Regulation, and that to the use of lights by during certain hours after sunset irrespective of the fact whether there is moon-light or not. This Council agreed on the last occasion that this not of such an elaborate nature as to necessitate its being referred to Committee. I have now only to put the motion before the House, *viz.*, Bill be passed into law.

MR. A. SUBRAMANYA IYER.—Sir, I beg to second the motion.

The motion was put to vote and carried.

IV. RESOLUTIONS ON MATTERS OF GENERAL PUBLIC INTEREST.

Provision of law for the institution of suits against Government.

MR. M. RAMACHANDRA RAO.—Sir, beg to move the following resol

"That this Council recommends to Government that steps be t introduce at an early date adequate provision of law for the instit suits against Government."

This resolution deals with a very important subject from a consti point of view. Representations for suitable provisions of law have in the p repeatedly made in the Representative Assembly but th answers vouchs now except at the last meeting did not indicate any earl ospect of succe complaint of the absence of legal provisions for th itution of suits Government is a long standing one and the necessary amendment of law due. I venture to assure you, sir, that it cannot be said either that th real grievance or that there is no urgency in amending the law, merely bec representations of the people have not so far been wider in scope or more

The first regular legislative enactment in British India prescribing th dure to be followed in suits against Government was the Code of Civil P Act VIII of 1859, and the next enactment was Act X of 1877. The l was introduced into the Territories of Mysore by Notification No. 47— the 27th May 1878 of the Foreign Department of the Government of Indi to certain modifications, the chief of which being the omission of provisio ing to suits against Government. After the Rendition, Regulation II of passed by our Government on the lines of the British Indian Act XIV but without the provisions regarding suits against Government. Subse this Regulation was repealed by Regulation III of 1911, which is the Cod force and which follows the British Indian Code (Act V of 1908) except said provisions. Therefore, since the year 1878, there is no law in our Sta down the procedure in respect of suits by subjects of the State against Gov though throughout, the law has made provision for suits by Governmen their subjects.

843

So far as the case-law in Mysore on this point is concerned, there are only three cases reported in our Law Reports. They are XII Mysore L. R. 145, XVIII M. C. C. R. 92, and XXII M. C. C. R. 277. In the first of these cases, an officer of Government, when sued for an illegal act, put forward the defence that he had acted on behalf of Government and as such was not liable to be sued. But the plea was rejected. It illustrates the tendency on the part of the Government officers to avoid the consequences of their actions by taking shelter under the absence of a provision of law for private individuals to sue Government. The second case was really a hard one and the party had to go without a remedy, because there is no method known to our law by which he could seek it. In the third case, that eminent Judge who is now at the head of the Judiciary in Mysore, Sir Leslie Miller, has observed that as suits against Government are recognised by Sections 221, 222, 225 and 230 of the Land Revenue Code and as provision is made in article 17 of the Schedule of the Limitation Regulation for suits against Government for land acquired for public purposes, it would seem desirable that the Legislature should provide some procedure for use in those suits.

In Halsbury's Laws of England, Volume I, page 17, the law in England with regard to legal proceedings against the Crown and its servants, is stated to be in the following terms; "Though the Sovereign may, if he sees fit, sue a subject in his own Courts, no suit can be maintained against him in such Courts by a subject, for it is a maxim of our law that 'the King can do no wrong.' If the act complained of by a subject be in the nature of a personal tort, his remedy is against that servant of the Crown who actually committed or authorised it, for as such act, even if committed by the King personally, could not in law be attributed to him, so it must be assumed that he did not authorise its commission by one of his servants. If, however, the subject's cause of complaint be an injury to, or deprivation of, property, or the breach of a contract made by, or on behalf of, the Crown, redress may be sought by means of the statutory remedy known as a petition of right against the King himself or the particular Government Department concerned. There are, however, certain colonial statutes which expressly give a right of action against the Crown. Where the Crown sues, a subject may apparently plead a cross-claim or set-off.

Crown servants and officers of public departments may sue and be sued like any other persons; but their liability in tort and contract is governed by different rules. A Government official or servant is liable for torts committed or expressly authorised by him as such official or servant, but not for torts resulting from the negligence or unauthorised acts of his subordinates, for such subordinates are not his servants, but those of the Crown. Again, a public servant cannot be made personally liable on a contract made by him on behalf of the Crown, nor can the public revenue be reached by means of a suit against him."

In a note expressly written by Mr. G. Stuart Robertson, author of "Civil Proceedings by and against the Crown" for the Annual Practice for 1921 and published in Vol. II of that book at pp. 1906-7 under the heading "Where Petitions of right will and will not lie," we find a most recent and authoritative list of matters connected with the petition of right. We cannot do better than select for our purposes from the list such of the matters as may be considered appropriate. The said note runs thus:—

"Petition of right is the process by which recovery is made from the Crown of property of any kind including money, to which the claimant (here known as the suppliant) is legally or equitably entitled, except in cases where the process is ousted by some statutory method of recovery. It has been held to lie for the recovery of corporeal hereditaments, of incorporeal hereditaments, of chattels real, of specific chattels or their value and of money claims. Among money-claims may be specified claims for liquidated sums due under contracts, for payment for services rendered, for unliquidated damages, for breach of contract, or for breach of warranty; for the personal estate of deceased intestates, for the repayment of duties paid of various kinds, for tolls, for compensation for land taken or for damage under a Statute.

Provision is also made for petitions of right as to colonial stock by the Colonial Stock Act, 1877, (40 and 41 Vict. C. 59), S. 20.

Petitions of right will not lie where another statutory procedure is p... under the National Debt Act, 1870 (33 and 34 Vict. C. 71), S. 55, or u... Income Tax Acts. Nor will it lie for a claim in tort; nor in general, for clai... military, naval, or civil officers of the Crown in respect of pay, pension, or dama... for loss of office; nor for land situated abroad, which is not vested in the Crown ... Imperial purposes, nor for money alleged to be payable by the Crown under treaty, ... or by the Crown as successor of a conquered State."

In British India, the law in respect of suits against Government is somewhat different. The provisions in the British Inidan Civil Procedure Code do not by themselves give any right of action but only declare the mode of procedure when a right of action has arisen. Further, they do not enlarge, or in any way affect the extent of the claims or liabilities enforceble by or against the Secretary of State for India in Council which originally depended on the provisions of the Government of India Act, 1858 (21 and 22 Vict. Ch. 106), Section 65. That Act has been repealed by the Government of India Act, 1915 (5 and 6 Geo. 5. Ch. 61) and Section 32 thereof corresponds to Section 65 of the repealed Act. The said Section 32 enacts that "The Secretary of State in Council may sue or be sued by the name of the Secretary of State in Council as a body corporate. Every person shall have the same remedies against the Secretary of State in Council as he might have had against the East India Company, if the Government of India Act, 1858 and this Act had not been passed." According to the latest view, the Secretary of State in Council is liable to be sued, as successor of the East India Company, for every act which is not an "act of State," whether it is an act which could have been done by a private individual or trading corporation or not.

In some of the Native States of India, provision is to be found for the institution of suits against Government in the Civil Procedure Code in force in those States. In Travancore and Cochin, suits by or against Government may be instituted by or against the Dewan of the State. In Baroda also suits may be filed against the Sircar. The procedure to be followed in Baroda in Civil suits against Government and Government servants was added to the Baroda Civil Procedure Code by Act VII of Samvat 1963, (October 1907.) The code is published in Guzarati. Through the assistance of a valued friend I have got the portion of the Code relating to suits against Government translated into English. Section 622 of the Code lays down that unless otherwise expressly stated, suits of a civil nature are competent against Government or Government officers. Section 623 provides that no suit lies against Government or officer of Government for acts done or purporting to be done in the exercise of sovereign powers. Section 624 sets out matters in respect of which suits do not lie against Government. Section 625 gives a list of matters with regard to which suits are cognizable against Revenue officers of Government. Sections 626 to 630 deal with acts for which Government or Government officers could not be sued. The Baroda Code and Mr. Robertson's note referred to already may afford valuable assistance to our Government in the initiation of necessary legislation.

The conditions in Mysore differ entirely from those prevailing in British India so far as suits against Government are concerned, but they approximate to those prevailing in England. In England a subject feeling himself aggrieved may proceed to seek redress by Petition of Right. The proceedings upon the Petition of Right have been simplified by the Petitions of Right Act, 1860, (23 and 24 Vict. C 34) and they may now be instituted in any division of the High Court. They are left at the Home Office of His Majesty's fiat and upon that being obtained, the subsequent proceedings follow the practice in ordinary actions as far as possible. But in Mysore we have no such right. The right must first be given by some legislative enactment and then to enforce that right, suitable provision will have to be inserted in the Civil Procedure Code. In my opinion, it will not do merely to amend the Civil Procedure Code as that would only prescribe the procedure for the enforcement of a right, which at present does not exist. There is also one other view which may be urged with some force. Our Government have copied the Bombay Land Revenue Code and the British Indian Limitation Act, both of which contemplate suits against Government in respect of certain matters. The Mysore Railways Regulation IV of 1894 has followed the provisions of the

ian Railways Act IV of 1879, and the definition of "Railway Administration" on therein shows that suits for compensation will have to be instituted against Government as most of our Railways are now administered by the State. If our Civil Procedure Code is amended by the insertion of a provision for suits against Government, then suits contemplated under the enactments referred to can be prosecuted in our courts. But when once the procedure is prescribed it will apply not only to the aforesaid classes of suits but also to all other kinds of suits that may be instituted against Government. What those other kinds of suits may be, we have no law now to guide us. As I have said already, in England, for a subject to proceed against the Crown, there is the ancient common law remedy by Petition of Right which is said to owe its origin to Edward I. In British India there is the Government of India Act, 1915 (5 and 6 Geo. 5. Ch. 61), which forms the substantive law creating the right in the subject to proceed against Government in certain matters.

If we stop at amending the Civil Procedure Code, then the Civil Courts would have to determine in each individual case whether the cause of action alleged in the plaint is a proper one or not and take for their guidance the principles underlying the right of a subject in England to proceed against the Crown by Petition of Right. But to leave matters in such an indefinite form does not seem advisable.

It is hardly necessary to state that the existing provisions for suits against public officers in their official capacity do not ensure all the relief that a party may be entitled to get in respect of his complaint, and will not help him to reach the public treasury as of right. In cases in which Government do not undertake the defence, there are chances of a private party not securing relief even if he should succeed in establishing a right thereto in courts of law. The public officer may die, retire or become insolvent. In all such cases, the decree which a party may obtain will be valueless. If the public officer dies during the course of the proceedings, the suit abates. There have been such instances in our courts. One such instance was brought to the notice of Government by the representative member for Shimoga in the Dasara Assembly for 1920.

The business of Government in several departments is daily getting more and more commercial. In the Electrical Department, the sale and the purchase of electric power are conducted on purely business lines. In the Industries and Commerce Department, transactions of Government with private individuals resemble those of creditors and debtors. For locating schools and offices the Education Department enters into various kinds of agreements with house-owners. In the Muzrai and Revenue Departments, management of landed properties is taken up by Government. The bonds in the case of the New Loan are executed in the name of the Government of Mysore and there are many other matters too numerous to mention in which Government have dealings with private parties. It cannot be said that in all these dealings the agents of Government will always be in the right. Very often the subjects of the State may have causes of complaint but without any means of redress. It is but right that proper provisions of law should be created to enable such subjects to seek remedies in Courts of law in respect of their complaints.

In conclusion, I would say that we have long been enjoying the proud distinction of being the citizens of an enlightened and progressive State and that by accepting the resolution and thereby satisfying the present legitimate demand of the people, Government will only be enhancing their claims to that distinction.

MR. B. N. VIJAYADEVA:—Sir, I am very happy to second the resolution so ably moved by my learned friend Mr. M. Ramachandra Rao.

In England, sir, the law is that any person natural or artificial may sue and be sued. To this maxim there are a few exceptions. One of such exceptions is suits against the Crown. I need not go into the other exceptions. The principle involved in this exception is this:—

Firstly, "The King can do no wrong" and secondly that the King cannot be made a party and answerable in his own courts and the third is that public revenue will be affected by such a trial.

But, if I understand the principle of the constitution of England aright, the state of affairs was not the same before Edward 1. The opinion has been expressed

946

by English Lawyers that such suits could have been filed against the Crown be... Edward 1. But afterwards the right was restricted. It was a long struggle from the time of Edward 1 till 1860 when the Petition of Rights Act came into existence (22 and 23 Vict. Ch. 34) Thanks to the labours of the English Lawyers and the Petition of Rights Act of 1860, by way of Petition of Right many of the grievances of the people against the acts of the Crown or its servants can be remedied in England.

In case of a personal tort a suit lies against the public servant.

In case of tort to propeity or a breach of contract made by or on behalf of the Crown there is a remedy by way of Petition of Right against the Government Department or King. A Petition of Right will lie for recovery of land, of corporeal and incorporeal heriditaments, for the recovery of properties of any kind including money or damages arising out of a breach of contract from Crown, or for services rendered. (Cf. Halsbury Vol. 10 p. 27.) There are a few exceptions in cases of suits for services rendered for example, no suit lies for disinissal, for according to English Law all Military, Naval and Civil Officers are dismissible at will.

That being the state of affairs in England, I find that on account of the Petition of Rights Act which is the process for the recovery of any kind of property from the Government, we find almost all the public grievances in England have been satisfied. It is erroneous to suppose that a Petition of Right will be on matters which are of grace and not of Right.

As regards the Colonies they have taken a step in advance of the British Constitution.

New South Wales Act 39 Vict. No. 38, and Strait Settlement Crown suits Ordinance 1876, expressly give a right of action against the Crown; and these statutes are far more liberal in spirit than what is to be found under the British Constitution.

Now coming to British India, we sue the Secretary of State because he is a successor of the old East India Company which was a trading corporation and which was being sued formerly.

O'Kinealy's Civil Procedure Code contains under Section 422 a list of cases in which suits have been filed and allowed against Government. It will be found that the classes of suits allowed are very wide there. My friend has referred to the law prevalent in Baroda. I am very thankful to him for giving me a copy of the translation of the Guzarati work. I find from what is said there that Baroda has gone far in giving the right to the citizens to file suits against Government in very many cases.

Coming to our own State there is provision for suits being filed against Government, only under the Land Revenue Code and under the Land Acquisition Regulation. But the rights are limited. The difficulties existing here are, that the rights are not clear, much less the remedy. In other words, provision must be made both in the Substantive and Adjectival law.

As my friend has observed, our Government is becoming more and more commercial and they are entering into commercial relations with the public. The Government have floated a loan which has been largely subscribed. There must be provision for filing suits against Government if it is found necessary. I do not mean to say that the Government will not carry out their undertaking. When a National Debt was raised in England the National Debt Act of 1870 had to be passed giving the statutory remedy to the public to bring actions, if necessary, against the Government. Our Government further, through its several departments which are semi-commercial (like the Railway and Electric Departments), enters into daily relationship with the public. It will be a great hardship and injustice done to the subjects, if provision is not made for affording legal remedy to the grievances, if any, of the public.

Time has, I believe, come when something must be done to allay the grievances of the public which have been voiced by their representatives in the Representative Assembly. As a seconder I think I have spoken at length and I heartily second the resolution that has been so ably moved by my friend Mr. Ramachandra Rao and I trust the Government will accept the resolution.

RAJASABHABHUSHANA DEWAN BAHADUR K. P. PUTTANNA CHETTY.—Sir, I have great pleasure in supporting the motion so ably moved by my friend

Mr. Ramachandra Rao and seconded by Mr. Vijiya Deva. This is a question in which the public are deeply interested. It has come up again and again for discussion before various public bodies.

To an Indian mind the right to sue the Crown appears to be rather anomalous. Throughout the World such a right has been conceded to the subjects in some form or other. In British India the right has been given under the fiction that the Secretary of State being the successor to the late East India Company may be sued for some acts done on behalf of Government. Whatever may be the rationale, the right has been conceded, and there we see a very humble individual, even a constable, suing the Secretary of State in Council for some act done on behalf of Government. Such a right I find, from the enumeration made by Mr. Ramachandra Rao, has been conceded in several Indian States. I think it is time and is even overdue, as Mr. Ramachandra Rao said, that such a reform should be introduced in the law of Mysore. The absence of such a law in a State, which claims to be civilised and progressive is, I take it, a denial of justice to the subjects of the State.

I may say by way of supplementing what Mr. Ramachandra Rao has said that all contracts in Mysore are entered into in the name of Government. The Executive Engineer does not enter into contract for building work, as between the Executive Engineer and the contractor, but as between the Government of Mysore and the contractor. In case of injustice on the part of the Department, the party cannot take legal action against Government and it is a very great disadvantage. For example, in railway contracts, we know what delay and trouble there was in the settlement of their claims.

MR. D. G. DANI.—It is not a contract between Government and contractor It is a works agreement.

MR. B. N. VIJAYA DEVA.—It is worse still.

RAJASABHABHUSHANA DEWAN BAHADUR K. P. PUTTANNA CHETTY, C.I.E.—The contractors' claims have been disposed of in a way.

MR. A. R. BANERJI.—The claims have not yet been disposed of. The matter is under arbitration.

RAJASABHABHUSHANA DEWAN BAHADUR K. P. PUTTANNA CHETTY, C.I.E.—As regards the recent State loan, I am aware that enquiries were addressed by would—be investors outside the State as to whether a suit lies against the Government of Mysore, and they were informed that no such suit lies against Government. I think they were very much surprised; but this happened after the loan was subscribed and not before. Some person wrote in the public press that suits against Government did not lie and hence the enquiry and it had to be answered. All bonds are made in the name of the Government of Mysore. I do not suppose that the Government will ever repudiate them. But as a matter of fact no legal remedy lies to the party as against the Government.

Then, it may be said that the grant of such a right to the people will detract from the prestige of the Sovereign. I venture to think that far from detracting from such prestige it will go to enhance the prestige of the Sovereign and the State ruled by him when he is pleased to condescend to grant such a right to the public. That is why it is called the 'Petition of Right.' The petitioner applies not as a man demanding his right but as a man who supplicates for what the Crown has been pleased to concede as a matter of grace. Any civilised State must grant this right. The day is passed when the absence of such a provision can be looked upon as a matter of course.

I think the Government will be very well advised in generously accepting this resolution and giving the people the relief which they have long sought for.

RAJAKARYAPRASAKTHA RAO BAHADUR M. SHAMA RAO.—Sir, I beg to support Mr. Ramachandra Rao. It contains very valuable arguments in support of the concession asked for, *viz.*, permitting suits in Courts, against Government. It is true that to an Indian mind suits against the Government in Native States in their own courts is somewhat of a novelty but I think that is due to the Executive and Legislative functions being combined in one and the same agency but we have now emerged into a different atmostphere. In England there is the maxim that the 'King can do no wrong' and the very same maxim we may take as applying to our own

country also. But there is this difference, however, between the two countries. In England, the King practically takes no part in the affairs of Government except giving his consent to legislative measures. But, here, His Highness the Maharaja takes part in the daily administration of the country and all schedule subjects go to him for orders. So the question is whether His Highness can be sued in his own courts. To a loyal subject of His Highness the Maharaja, such an idea of suing His Highness is most offensive, but at the same time there should be nothing to prevent a suit being filed against the Government though not against His Highness the Maharaja. There are various matters which do not go to His Highness and which the Executive Officers of Government deal on their own account. In such matters, I do not see why a suit against Government should not lie. There may be certain occasions when matters included among the scheduled subjects that go to His Highness may have to be contested in a Court of Law. Provision should be made to except such acts when expressly sanctioned by His Highness the Maharaja. Just as we have got scheduled and non-scheduled subjects for the conduct of Government, perhaps a schedule of subjects may be prepared in which the people possess the right to sue the Government.

No doubt, it looks to me that there is a little difficulty in the way, but at the same time, there is a desire everywhere for the privilege to sue Government and with the proviso that we safeguard that maxim that "the King can do no wrong," I think the time has come for the Government to grant the concession.

RAO BAHADUR M. C. RANGIENGAR.—Sir, in connection with the new Civil Procedure Code introduced in the year 1911, I had the honour to serve on the Select Committee. During the discussion in the Select Committee I brought up the subject that suits against Government ought to be provided for in the new Civil Procedure Code. The Member (late Mr. H. V. Nanjundia), who was then in charge of the Bill took time to consider and after 3 or 4 adjournments of the meetings of the Select Committee he finally gave as his considered opinion, that he would not consent to the introduction of such a provision in our Civil Procedure Code. He was not pleased to assign reasons for it. As a Member in charge of the Bill he could not see his way to accept it, however much he sympathised with the proposal. The subject was then dropped and subsequently year after year, as we are aware, the people have been asking for the concession.

My own opinion is that the rights should be conceded subject to certain conditions.

(1) There should be no suit against Government, for Acts of State.

(2) There should be no suit against the august person of His Highness the Maharaja.

In all other cases there should be provision for suits against Government or public officers.

There are two classes of suits,

(*a*) Against Government Officers ;

(*b*) Against Government.

In British India the Civil Procedure Code contemplates both.

As against Government Officers there is provision in our Civil Procedure Code. But there is none for suits against Government. It may be asked, as to what kinds of suits should be filed against Government and what against Government Officers. This is a matter which requires the consideration of Government.

The difficulty which people have been experiencing is pointed out by my friend Mr. Ramachandra Rao. A suit may be filed against a Government Officer. If that officer is transferred or retired difficulties arise. The office may change hands any number of times. There will be any number of amendments as regards the defendant. In one case which I myself conducted there were half a dozen amendments. Has the plaintiff the right to bring the successor in office on record as the defendant? What has to become of the officer originally responsible for the act? These questions used to arise very frequently and every time the matter had to go before the Chief Court, and the Chief Court had to decide the question. To obviate all these difficulties it is now necessary that suits against Government should be permitted. Then it will be only one officer that is sued as in British

India. The suit will proceed without any hitch whatever. Such a course is very necessary in the State.

As to the cases in which suits should not be filed against Government, it is for Government to decide after carefully considering the question and examining the practice prevalent in other States and Governments.

With these remarks, I support the resolution of Mr. Ramachandra Rao.

MR. B. V. RAMASWAMY CHETTY.—Sir, I support the resolution that has been so ably moved by Mr. Ramachandra Rao and supported by Messrs. Vijayadeva, K. P. Puttanna Chetty and Shama Rao.

There are, I think, two kinds of suits which, we find from our experience, it is possible to bring against Government Officers. Suits may be brought against Government Officers in which grievances are due to the officers having failed to act in conformity with law. For this, Government cannot be held responsible.

There are circumstances in which suits can be filed against Government servants as agents of Government. For example the Railway Engineer gives certain contracts as head of the Railway Administration and large sums of money fall due. There occurs some delay in the payment of dues to contractors. It cannot be said that the grievance to the party was caused by the officer's neligence, but by Government. He acts as an agent of Government. In a case like that, as the law now stands, the contractors cannot sue Government.

Two or three years ago there was a case filed against the Municipality and the Government. Mr. K. P. Puttanna Chetty represented the Municipality and Mr. C. S. Doraiswami Iyer appeared for Government. Mr. Plumer dismissed the suit against Government on the ground that there was no provision under the law, for the institution of suits against Government.

Previous speakers including the mover stated that the right of suing Government is conceded to private individuals in British India and in England. In a case where the Chief Commissioner of Coorg was sued, the Chief Court ordered that the Secretary of State for India should be the defendant and not the Chief Commissioner.

But unfortunately when the Civil Procedure Code was introduced in our State, this provision was not adopted. Although Mr. M. C. Rangiengar was for the adoption of the provision, other officers on the committee objected to it. I don't know on what grounds they did so.

As in Baroda, the right may be given in certain cases. There may be restrictions regarding certain suits, and freedom in others. The point has been urged in the Representative Assembly, the Legislative Council, and other places. Difficulties of the subjects for want of this provision are great, and the granting of the same is absolutely necessary.

Mr. H. VENKATRAMAIYA.—Sir, I beg to support the resolution moved by Mr. M. Ramachandra Rao. After what has been said by him and other speakers, I have very little to say. There are various instances in which Government have sued individuals for breaches of contract. I believe there are some suits pending. People who have entered into contract with Government and failed to fulfil the terms of contract have been sued and decrees obtained. In these circumstances, I do not suppose it would be right to deny to the individuals the right to sue the Government, if they do not fulfil their part of the contract. So, I beg to support the resolution moved by Mr. M. Ramachandra Rao.

MESSRS. H. KRISHNA RAO AND VENKATESAIYA supported the resolution.

MR. ANANTHIAH SETTY.—Mr. Ramachandra Rao has clearly brought out in his able speech the need for the introduction of a provision for the institution of suits against Government, in the Civil Procedure Code. Other speakers have also spoken in support of it and I have no more to say. I only support the resolution as has been moved by Mr. Ramachandra Rao.

MR. MIR HAMZA HUSEIN.—Sir, as the members are aware, the question was brought up at the last meeting of the Representative Assembly. The remarks of

the Dewan Saheb, in his concluding speech offer, I think, a sufficient re- resolution that has been so ably moved by my friend Mr. Ramachandra Rao. Dewan Saheb said:—"Turning to the judicial subjects, I am glad to be able to tell you that the question of permitting suits against the Government which has been repeatedly urged by the Assembly, has nearly reached a final stage and a decision may be expected within the next few months." I may state here for the information of members that the Bill upon the subject is in the course of preparation. The form of the bill, the classes in which, and the limitations subject to which, the right should be conceded, are the points which are now engaging our attention.

Perhaps, the members are aware—and I believe it has deen abundantly made clear by the speeches—of the law prevalent in England; and there, an unrestricted right of suit against the Crown does not exist. The remedy lies by way of 'Petition of Right' and the Courts cannot take cognisance of any claim without the previous sanction of the Crown. The petition is presented to the Home Secretary and after consultation with the Attorney General, a fiat is issued granting permission to sue Government. In a democratic country like the United States of America, the subjects have no right of suit against the State under the Constitution of the country. It is only by means of Special Enactments that the right has been conceded and a special tribunal called the Court of Claims is created for the trial of these suits. In British India, however, suits can be brought freely against the Secretary of State as has been pointed out by Mr. Ramachandra Rao, but this is due to the fact that the East India Company which preceded the present Government, was a trading corporation which could sue and be sued in ordinary courts.

It will be seen that the matter of legislation is beset with certain difficulties which will have to be very carefully considered and solved. I may assure the members that the Government are in sympathy with the resolution and we are taking early steps to introduce a suitable measure into the Legislative Council. If Mr. Ramachandra Rao accepts a slight amendment, and if the word "suitable" is substituted for the word "adequate" in the resolution, Government will have no objection to accept the resolution.

MR. M. RAMACHANDRA RAO.—Sir, I have not the least objection to accept the amendment. I beg to express my best thanks to my non-official colleagues who have lent their weighty support to the resolution. I am also thankful to Government for their having accepted the resolution in the amended form.

The council was then adjourned *sine die*.

C. ABDUL GHANI,
Secretary,
Mysore Legislative Council.

APPENDIX D.

Devaraj Bahadur Charity Fund.

Order:—

* * * * * *

4. Though owing to differences in the family; the various members have been unable to agree in the selection of proper objects of useful public charity and have accordingly left such selection to His Highness the Maharaja; yet, having regard to the wishes already expressed by them from time to time, and bearing in mind the fact that the family really consists of two branches, His Highness is of opinion that it will be best in the interest of the public and most agreeable to the wishes of both branches of the family that there should be two charities, one in the name of Nanja Raja Bahadur for the construction and maintenance of a Chattram, and the other in the name of Devaraja Bahadur, father of Sivaram Raja Bahadur, for the advancement of Education.

5. His Highness the Maharaja regards it as undesirable that the administration of these charities should be thrown upon the State Muzrai Department and he believes that they will be more efficiently and economically administered by Committees of private gentlemen.

6. With the view, therefore, of carrying out the construction and providing for the maintenance of a Chattram at Mysore intended for all classes and to be called "Nanjaraj Chattram," His Highness the Maharaja is pleased to entrust the sum of Rs. 63,547-7-0 to a Committee composed of the following gentlemen:—

1. Mr. Alagendra Krishna Urs.
2. Rai Bahadur P. Krishna Rao.
3. Do A. R. Sabhapathi Mudaliar.
4. Sowcar Veerasangappa.
5. Sowcar Bommia.
6. Mr. G. H. Bayly.

7. His Highness is pleased to entrust the remaining sum of Rs. 50,000 to a Committee composed of the following gentlemen:—

1. Mr. T. R. A. Thumboo Chettiar.
2. „ E. Chidambaram Iyer.
3. „ A. Narasimha Iyengar.
4. „ A. R. Narayen Sastri.
5. „ Mallari Rao (School master).
6. „ B. Mallappa (School master).
7. „ S. Rangacharlu (Pleader).
8. „ H. Nanjunda Raja Urs (Attaché).

This Committee will invest safely the whole of the funds entrusted to them in Government Promissory Note or in suitable landed property and out of the proceeds of such investment, found endowments in the names of Devaraja Bahadur for the improvement of Sanskrit and Vernacular literature and for the advancement of education in directions in which adequate provisions do not already exist. They should make the investment and endowments as above directed after obtaining His Highness' previous sanction to their proposals in that behalf.

8. His Highness reserves to himself the power of removing any of the trustees appointed under paras 6 and 7 above, as well as the power to appoint additional trustees and to fill up any vacancy caused by the death, retirement or removal of any trustee or otherwise.

READ THE FOLLOWING PAPERS—

1. The following letter from the Joint Honorary Secretary "Devaraj Bahadur Charity Fund," dated 13th March 1895, addressed to the Dewan:—

"I herewith submit the Memorandum drawn up by the Joint Secretaries regarding the administration of the Devaraj Bahadur Charity Fund, together with the remarks of the President and other trustees. The Memorandum briefly explains the various objects which were carried out with the help of this fund from

859

June 1883 to March 1895, and also contains our proposal for the future administration of the fund."

"In accordance with the view expressed by Government in its Order No. D. H. O. 8, dated Camp Mysore, 5th June 1892, which has been fully quoted in the Memorandum at page 15,* the Joint Secretaries carefully thought over the matter and proposed to the trustees that the whole income of the fund may in future be devoted to the education of high caste widows. I am happy to note that the other trustees also have approved of this object and think that about two-thirds or even three-fourths of the income of the fund may be devoted to it, and that the remainder may be set apart for encouraging the translation of useful English and Sanskrit works into Kanarese and for continuing the services of the present music teacher and employing an additional teacher, if possible, to give lesson to home students on the Vina. But individually I fully concur with Government in thinking that it is desirable to devote the whole fund to a single laudable object. By specially encouraging the education of high caste widows, we shall be supplementing the efforts of Government in spreading and popularising female education in Mysore, and at the same time save the most unfortunate section of the Hindu community from life-long misery and wretchedness, by elevating their minds and making them useful members of society. Many of the other advantages of the proposal have been pointed out in the Memorandum.

"I beg that the Government may be pleased to take the matter into their kind consideration and sanction the proposal to devote the whole fund in future to the education of high caste widows. After the proposal is sanctioned we shall submit for the approval of Government detailed rules for successfully carrying out the object.

"Our accounts, a statement of which to the end of March 1895 is herewith submitted, show a balance of Rs. 3,787-12-10 on hand, which has been safely invested in the Government Savings Bank at Mysore. As it is not advisable to stop suddenly in the middle of the year the grant-in-aids and scholarships we are now giving, it will be necessary to continue them till the end of the year, and about Rs. 1,287-12-10 will be necessary for the purpose. The remaining Rs. 2,500-0-0 may be set apart for the work of translation and for continuing the services of the itinerent music teacher to give lessons to home students on the Vina."

II. Education Secretary's Memo, dated 20th March 1895, submitting the opinions of the members of the Maharani's Girls' School Committee on the proposals of Rai Bahadur A. Narasimmiengar, Joint Honorary Secretary, Devaraj Bahadur Charity Fund, and suggesting that admission to the widows' classes may be restricted to pupils of industrious habits and good moral character.

*"The arrangements proposed by the trustees are sanctioned as a tentative measure subject to revision at the end of three years. An obvious objection to the distribution proposed is that it consists of too many small items. A large object to which the fund could be beneficially devoted would be more suitable. The trustees are requested to take this point into their consideration in due course."

C. No. 186, DATED 30TH MARCH 1895.

ORDER THEREON.—The trustees of the "Devaraj Bahadur Charity Fund" propose, in the papers read above, to utilise a large portion of the annual income of the fund to educate high caste widows in view to their being eventually employed as teachers in girls' schools.

2. When the fund was placed in the hands of the trustees, they were informed, by Government Order dated 26th June 1883, that the object of the endowment was "the improvement of Sanskrit and Vernacular literature" and the "advancement of education in directions in which adequate provisions do not exist." The Government are of opinion that the trustees are bound to carry out the trust, as far as possible, according to the expressed intentions of the endower.

3. To offer special inducement and facilities to grown-up Hindu widows to educate themselves for employment as teachers in girls' schools will doubtless be promoting one of the objects of the endowment, but the entire income cannot be exclusively and permanently devoted to the attainment of this single object. The Government are, therefore, pleased to sanction the appropriation, for a period of six years and subject to consideration thereafter, of three-fourths of the income of

PRESS COMMUNIQUE.

The attention of Government has been drawn to a notice published in certain newspapers to the effect that the Mysore Government Soap Factory, the property of the Government of Mysore, has been handed over to Messrs. Papiah Chetty and Bros., the Agents of the Factory. The Vrittantha Patrika of Mysore further mentions that the services of Mr. S. G. Sastri, Industrial Chemist, have been placed by Government at the disposal of the Firm. The Government consider it necessary to state that the question of transferring the factory to private agency is still under consideration, and there is no foundation for the report referred to above.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Village School Master's Pay.

READ:—

Subject No. 123 of the Representative Assembly of October 1920 regarding arrangements for the prompt disbursement of pay to Village School Masters.

ORDER No. 1372-4—EDN. 162-21-2, DATED THE 27TH SEPTEMBER 1921.

With a view to avoid delay in the payment of salaries and grants to school masters and also to relieve the Sheikdars of the work of disbursing these amounts a system was introduced in Government Order No. 8529-39—Edn. 33-18-3, dated the 8th March 1919, under which direct payment at the treasury is made in the case of salaries and grants of teachers of Village Elementary Schools within a radius of 10 miles of the taluk headquarters, payments in other cases being arranged to be made by postal money orders. Subsidiary and detailed instructions have also been issued by Government in the matter which provides that the Assistant Inspectors should prepare two consolidated statements, one for grants to Aided Village Elementary Schools and the other for salaries to teachers, and forward them to the treasuries concerned for encashment and payment. The money order forms in the case of salaries and grants to masters of schools beyond the prescribed radius of 10 miles are also duly filled in by the Assistant Inspectors and sent to the Treasuries along with the bills, one money order being made out for each school. After auditing the bills, the treasury authorities arrange for direct payments in concerned cases after obtaining necessary acquittances, and for remittance by money order, in other cases, the money order acknowledgments being attached to the acquittance roll kept in Taluk offices.

This system has been acknowledged to be an improvement on the previous procedure but complaints have not ceased as regards the delay that still exist in the disbursement of

salaries and grants. Various suggestions have been made in this connection to improve on the present system and the following are a few of the important one :—

(i) That direct payment may be restricted to the teachers of schools within a radius of five miles.

(ii) That for the contingency of the Headmaster being away at the time the money order arrives and the consequent delay in the disbursement of salaries to other teachers whose pay may also be included in the same money order a separate money order may be issued in the name of each teacher instead of a single money order for a whole school.

(iii) That the Range Officer may himself draw the money and remit it direct to the masters obviating delay on the part of the treasury.

As regards the first two suggestions above, Government observe that apart from the increase of scriptory labour which they involve in the offices of Assistant Inspectors in having to prepare a large number of money order forms and the increase of work thrown on Taluk Offices in having to watch the receipt of a large number of acknowledgments, the commission payable on the money orders would also become unduly high, quite disproportionate to any additional facility that the adoption of the suggestions may bring about. They are therefore not in favour of adopting either of these suggestions.

With regard to the third suggestion, they consider that the object can as well be achieved by adopting the system ordered in the Government Order dated the 8th March 1919, by necessary and proper check over the various authorities concerned in the scheme.

With a view therefore to ensure proper and efficient scrutiny over the work of Assistant Inspectors and the Taluk Officers in this matter, the Government have recently approved of the proposal of the Inspector-General of Education to prescribe a monthly return in the form appended showing the dates on which pay bills were prepared and sent to the treasury by the Assistant Inspectors and on which salaries were drawn and disbursed. Government consider that with these safeguards the scheme already sanctioned may be given a sufficiently long trial before any changes therein are contemplated.

Chief Secretary to Government.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Village School Master's Pay.

READ.—

Subject No. 123 of the Representative Assembly of October 1920 regarding arrangements for the prompt disbursement of pay to Village School Masters.

ORDER No. 1372-4—EDN. 162-21-2, DATED THE 27TH SEPTEMBER 1921.

With a view to avoid delay in the payment of salaries and grants to school masters and also to relieve the Sheikdars of the work of disbursing these amounts a system was introduced in Government Order No. 8529-39—Edn. 33-18-3, dated the 8th March 1919, under which direct payment at the treasury is made in the case of salaries and grants of teachers of Village Elementary Schools within a radius of 10 miles of the taluk headquarters, payments in other cases being arranged to be made by postal money orders. Subsidiary and detailed instructions have also been issued by Government in the matter which provides that the Assistant Inspectors should prepare two consolidated statements, one for grants to Aided Village Elementary Schools and the other for salaries to teachers, and forward them to the treasuries concerned for encashment and payment. The money order forms in the case of salaries and grants to masters of schools beyond the prescribed radius of 10 miles are also duly filled in by the Assistant Inspectors and sent to the Treasuries along with the bills, one money order being made out for each school. After auditing the bills, the treasury authorities arrange for direct payments in concerned cases after obtaining necessary acquittances, and for remittance by money order, in other cases, the money order acknowledgments being attached to the acquittance roll kept in Taluk offices.

This system has been acknowledged to be an improvement on the previous procedure but complaints have not ceased as regards the delay that still exist in the disbursement of

952

salaries and grants. Various suggestions have been made in this connection to improve on the present system and the following are a few of the important one :—

(i) That direct payment may be restricted to the teachers of schools within a radius of five miles.

(ii) That for the contingency of the Headmaster being away at the time the money order arrives and the consequent delay in the disbursement of salaries to other teachers whose pay may also be included in the same money order a separate money order may be issued in the name of each teacher instead of a single money order for a whole school.

(iii) That the Range Officer may himself draw the money and remit it direct to the masters obviating delay on the part of the treasury.

As regards the first two suggestions above, Government observe that apart from the increase of scriptory labour which they involve in the offices of Assistant Inspectors in having to prepare a large number of money order forms and the increase of work thrown on Taluk Offices in having to watch the receipt of a large number of acknowledgments, the commission payable on the money orders would also become unduly high, quite disproportionate to any additional facility that the adoption of the suggestions may bring about. They are therefore not in favour of adopting either of these suggestions.

With regard to the third suggestion, they consider that the object can as well be achieved by adopting the system ordered in the Government Order dated the 8th March 1919, by necessary and proper check over the various authorities concerned in the scheme.

With a view therefore to ensure proper and efficient scrutiny over the work of Assistant Inspectors and the Taluk Officers in this matter, the Government have recently approved of the proposal of the Inspector-General of Education to prescribe a monthly return in the form appended showing the dates on which pay bills were prepared and sent to the treasury by the Assistant Inspectors and on which salaries were drawn and disbursed. Government consider that with these safeguards the scheme already sanctioned may be given a sufficiently long trial before any changes therein are contemplated.

Chief Secretary to Government.

Letter No. 9663—396, dated the 3rd May 1904, from the Inspector-General of Education in Mysore, recommending a monthly grant of Rs. 100 to the Devaraj Bahadur Charity Education Fund to supplement the income of the fund now devoted for scholarships to widow pupils on the conditions specified.

ORDER THEREON No. 6041-3—EDN. 36-03, DATED 17TH JANUARY 1905.

1. The annual income from the Devaraj Bahadur Charity Education Fund is Rs. 2,500. Three-fourths of it are being devoted to the education of widows in accordance with G. O. No. C. 186, dated the 30th March 1895 and the balance towards the encouragement of Sanskrit and Vernacular literature. It is now stated that though the amount available for scholarships to widow pupils is Rs. 156-4-0 per mensem, yet the actual amount spent for the purpose up to June 1904 is Rs. 252 per mensem, the excess being met from the savings of past years. The Honorary Secretary of the fund states that all the savings have been exhausted and requests that a contribution of Rs. 100 per mensem may be sanctioned by Government from the State Funds towards the scholarships of widows with effect from the 1st June 1904. The Inspector-General supports the Honorary Secretary's request and recommends a monthly grant of Rs. 100 on certain conditions.

2. The Government of His Highness the Maharaja consider that the whole income of the fund may be usefully devoted towards one single object, *viz.*, the education of widows and they are accordingly pleased to direct that the whole of the income be utilized for that purpose. For the encouragement of authors, etc., the other object towards which a portion of the fund has up to now been devoted, there is an annual provision of Rs. 4,000 in the Education State Fund Budget, which will be quite sufficient.

3. As there is no information before Government as to the number of scholarships, etc., the Inspector-General of Education is requested to submit a detailed statement showing the number and rates of scholarships now allowed as compared with those recently sanctioned in the Madras Presidency for a similar purpose and those now recommended by him. He is also requested to state if he can effect any saving by revising the scholarships in the Maharani's College, which may be utilized for the benefit of the widows.

Extract from Government Order No. 683-92—Edn. 91-08-3, dated 19th July 1909.

Records the Report on the Administration of the Devaraj Bahadur Charity Fund, for the years 1907 and 1908, and appoints Messrs. V. N. Narasimha Iyengar, M. Shama Rao, M.A., B. Ramakrishna Rao, and A. Mahadeva Sastri, to fill up the four vacancies now existing among the trustees of the said fund.

Letter No. Gl. 7785 of 19-20, dated 5th October 1920, from the Inspector-General of Education, forwarding a copy of the Proceedings of the meeting of the members of the Devaraj Bahadur Charity Fund held on 15th February 1920.

ORDER No. 9507-8, DATED 5TH APRIL 1921.

Government observe that since the Board of Trustees for the management of the Devaraj Bahadur Charity Fund was reconstituted in Government Order No. 683-92 —Edn. 91-08-3, dated 19th July 1909, there have been three vacancies on it due to the death of Messrs. V. N. Narasimhiengar and A. Narasmhiengar, and the resignation of Mr. A. Mahadeva Sastri, and that therefore a reconstitution of the Committee is called for. They are pleased to direct that pending the appointment of a fresh Committee, the administration of the fund may vest in the Committee of the Maharani's Girls' High School, Mysore.

2. Government also consider that the scheme of administration of the fund which was sanctioned in Government Order No. C. 186, dated 30th March 1895 and modified in later orders may be examined with a view to find out whether any change is necessary in the objects on which the proceeds of the fund are spent. The Inspector-General of Education is accordingly requested to examine the scheme in consultation with the Committee of the Maharani's High School and submit a report in the matter at a very early date.

3. Government take this opportunity of placing on record their appreciation of the work done by the retiring Board of Trustees of the Devaraj Bahadur Charity Fund.
